

## Supporting Information Table S2

|   | Good (n=18)  | Poor (n=6)   | p-value |
|---|--------------|--------------|---------|
| <b>All children (n=24)</b>                |              |              |         |
| Total number of electrodes                | 105.3 ± 13.9 | 106.7 ± 9.3  | 0.42    |
| Number of electrodes in the resected area | 54.9 ± 17.2  | 48.8 ± 20.7  | 0.27    |
|   | Good (n=7)   | Poor (n=3)   | p-value |
| <b>ES+ (n=10)</b>                         |              |              |         |
| Total number of electrodes                | 103.9 ± 14.3 | 112.0 ± 10.6 | 0.18    |
| Number of electrodes in the resected area | 68.4 ± 15.6  | 57.0 ± 28.6  | 0.28    |
|   | Good (n=11)  | Poor (n=3)   | p-value |
| <b>ES- (n=14)</b>                         |              |              |         |
| Total number of electrodes                | 106.3 ± 14.9 | 101.3 ± 8.0  | 0.24    |
| Number of electrodes in the resected area | 46.4 ± 12.1  | 40.7 ± 7.4   | 0.18    |

ES, epileptic spasms
