211 East Cliff, Peitaino Beach
Hopei, China 6/10 to 9/5 -1934.

Our house to the extreme left.

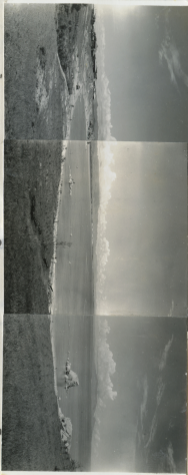

From our front porch looking
north.

(1)
(2)
(3)

1 Baby beach.

2 The mountains in the distance are really very large.
3 Hills and Mountains back of Shanhaiwan in the distance.
Small peak to extreme right was one I climbed to see
the Great Wall on 7/30. (See pictures and story later)

Another scene looking north
from near our house.

The beach where we go swimming.

Peitaiho, 1934

Light House Point about a mile south of us.

Two junks in the distance.

Peitaiho, 1934

Kids all want their pictures taken here.

Fishermen taking shrimps etc out of their nets ready for market. See the nice donkeys they have here.

Miss All want their pictures
taken here.

out of their hats ready for mar-
ket. See the nice donkeys they
have here.

Peitaiho, 1934

Mrs. Harry Price, who lives with
Dr. Stewart at Yenching, and her
daughter. Her husband is Prof. of
Polit. Science. Both are China born.
Presby South, very fine people.

Miss E. Schöpfmeire who is going
with us to Hengchow next year.

Harry looking for little bugs -
and then he likes to put rocks
on them.

Question: Where are Grandma and
Grandpa? Ans. Over there! In Santa
Ana and Long Beach.
Note: Over there is due east.

Peitaiho, 1934

On our way home from the beach.

1934

A Merry Christmas
and a Happy New Year
to Grandpa
from Harry

Question: Where are Grandma and
Grandpa? Ans. Over there! In Santa
Ana and Long Beach.
Note: Over there is due east.

Peitaiho, 1934

Harry says he is sculling a
boat as the Chinese do.

On our way home from the beach.

Harry enjoys the ring and actually paddles a long way out with it on. He likes the water.

Harry in a playful mood.

Peitaiho, 1934

Monday, 7/30, I took a very interesting trip to Shanhaikwan to see the eastern end of the Grt. Wall. There were 45 in the party. We left the depot at 6:30 am, ar'd at Shan' n 8:15 am. The mgr hired donkeys & we left for the mtns. a la army! It was a real cavalcade going thru town. The donkey boys carried our lunch baskets and we galoped a head. When we reached the mtns. the trail was very steep, in some of the places the fatter people had a hard time sticking on the donkeys. The wall went straight up from the sea to the mtns. about $2\frac{1}{2}$ miles and then right up the side of the hill. The wall went clear up the highest peak and then turned to follow the ridge. The trail wound around the hillside most all the way near the wall. Near the top a little temple nestled in the hills near the wall.

#1.

Here we left our food and donkeys after exploring about a bit and seeing the interesting old idols. From here I took a little walk to the side of the hill and took #2.

There I saw remains of Japanese machine gun nests with many sand bags lying about. You can see the trees in #2, notice the way they trim the branches off for fire wood. From the temple we walked or climbed up to the top of the peak where the wall extended and from there we had a magnificent view of the wall going down to the sea, Shanhaikwan, Chingwangtao, and off in the dim distance Peitaiho. To the west was the most beautiful view - Pict.#3. There was a winding valley with a large river flowing out to the sea. The little hills were entirely covered with green and the winding greenish blue riv-

er was a sight I have never seen the like before. The shadows from the clouds made it more beautiful.

(↓ Rock same as seen in #5 & #7)
We went back to the temple and had our lunch. The men living in the temple served tea and boiled water to any wanting it. We went down a foot path to the river we had seen below and met the donkeys at another temple where the river leaves the mtns. When we arrived at the big rock we had a dandy swim. Those that had bathing suits swam together and the men that didn't went farther around the rock and had just as good a swim. After the swimming we had to cross the river 3 times before we got to the temple. The river was deeper than usual because of the recent heavy rains. The rocks were slippery so we had quite a time getting the ladies across. It was a relief to get

back to the donkeys again, and at last get down to level ground and trot back to the R.R. We still had several hours before the train left so we went down to where the wall dips into the Sea. We took our dinner with us and ate on the rocks where the wall used to be. Now it is nearly all demolished except the foundation. We saw a lot but we were glad to get back to Peitaiho again. Because of the rains being so heavy this year the mtns were beautiful (July 8th it rained 9 inches in 12 hours at Peitaiho).

#4.

A part of the party after leaving the donkeys.

Peitaiho, 1934

Peitaiho. 1934

#5

A tributary of the main river with big rock arising from the valley floor. River nearly surrounds it.

#6

No one fell in !

No one

#7

The other side of the rock
with the main river in front.
