The authors would like to announce the following corrections:

1. The last sentence of the caption text for Figure 2 “Blue fluorescence represents ADS406PT and red fluorescence represents ADS406PT.” should read as “Blue fluorescence represents ADS406PT and red fluorescence represents ADS306PT.”
2. The first sentence of the caption text for Figure 3 “Biphasic microfibers labeled with...” should read as “Biphasic microparticles labeled with...”.
3. On page 3 in the section “Confocal Laser Scanning Microscopy”, the sentence “A 488 nm An argon laser was used to excite ADS306PT and FITC.” should read as “A 488 nm argon laser was used to excite ADS306PT and FITC.”

The authors apologize for any inconvenience caused.
