A GUIDE FOR ORCID (OPEN RESEARCHER AND CONTRIBUTOR ID)
Merle Rosenzweig, Taubman Health Sciences Library, University of Michigan

Open Researcher and Contributor ID (ORCID)
This guide will walk you through ORCID. It will provide information about ORCID, its purpose, and how to register and use it to distinguish you, your research and your publications. To access ORCID, visit ORCID.ORG

Last Updated: Nov 11, 2013 | URL: http://guides.lib.umich.edu/ORCID | Print Guide

What is ORCID?

What is ORCID?

- An open, non-profit, community-based effort to create and maintain a registry of unique research identifiers and a transparent method of linking research activities and outputs to these identifiers
- ORCID provides a standard unique author identifier that distinguishes you from every other researcher and, through integration in key research workflows such as manuscript and grant submission, supports automated linkages between you and your professional activities ensuring that your work is recognized
- ORCID Registry aims to prevent authorship confusion
- Some publishers will require an ORCID ID in the ScienCV platform, for linking researchers, their grants and their scientific output
- To create your own ORCID ID, simply go to the ORCID website--http://orcid.org-- and register
