ALL ABOUT PMCID/PMC & MY BIBLIOGRAPHY AS RELATES TO THE NIH PUBLIC ACCESS POLICY

Merle Rosenzweig,
Taubman Health Sciences Library
oriley@umich.edu

PMCID/PMC

NIH grant proposals, applications and progress reports are required to include the PubMed Central reference number (PMCID) for cited articles that:

- have been archived in PubMed Central
- in compliance with the NIH Public Access Policy.

NIH Public Access Policy Details

The NIH Public Access Policy implements Division F Section 217 of PL 111-8 (Omnibus Appropriations Act, 2009). The law states:

The Director of the National Institutes of Health ("NIH") shall require in the current fiscal year and thereafter that all investigators funded by the NIH submit or have submitted for them to the National Library of Medicine's PubMed Central an electronic version of their final, peer-reviewed manuscripts upon acceptance for publication, to be made publicly available no later than 12 months after the official date of publication: Provided, that the NIH shall implement the public access policy in a manner consistent with copyright law.

PMC

PMC is a free full-text archive of biomedical and life sciences journal literature at the U.S. National Institutes of Health's National Library of Medicine (NIH/NLM).

- All articles added to PubMed Central are assigned a unique identifier—a PMCID—that will need to be submitted to the NIH.
- A PMCID is required for demonstration of compliance with the NIH Public Access Policy for applicable works, three months post publication and beyond, noted in NIH applications, proposals and progress reports.

- NIH Manuscript Submission System (NIHMS) facilitates the submission process of final, peer-reviewed manuscripts for compliance with the NIH Public Access Policy.
- NIHMS ID is a unique number assigned to a work that is submitted to the NIHMS in preparation for posting to PubMed Central (PMC) up to three months of publication of the work. .
- NIHMS allows users to deposit and manage those manuscripts.
- Manuscripts in a wide range of electronic word-processing formats can be submitted.
- An awardee may demonstrate compliance with the Public Access Policy by including an NIH Manuscript Submission Reference Number (NIHMSID) in lieu of a PMCID at the end of a full citation.

USING THE NIHMSID

1. NIHMSID is a temporary substitute for a PMCID.
2. It is intended to be used only in cases where an awardee needs to cite a paper soon after its acceptance by a journal.
3. Using the NIHMSID to indicate compliance many months after the publication of a paper is not acceptable.
4. Because the Policy requires submission at the time of acceptance and the NIH manuscript submission process can generally be completed within a few weeks, this is an unacceptable use of the NIHMSID.

NON-COMPLIANT PUBLICATION AND FUNDING OF CONTINUATION

APPLICATION: MESSAGE FROM NIH/NICHD

“You will need to clear up the non-compliance issue with the paper that you reported in your recently submitted Type 5 continuation application. Since it was published in 2013, the three-month window for completing the submission to PubMedCentral past. That’s why it’s considered “non-compliant.” It is no longer acceptable to list the NIHMSID. The law now prohibits NIH from releasing funds until Public Access issues are resolved. It may be as simple as updating the citation with the PMCID# since you do report a NIHMSID indicating the process was started. You must first clear up how this article appears in your NCBI account (replace the NIHMSID with the PMCID). Then, your business office should email a PDF of your NCBI account showing the publication and the PMCID# to your Grants Management Specialist.

Only then will we be able to process your continuation application and release the funds. Because of these changes in the law, it is important that you keep your NCBI account up to date and only report publications in your continuation application that involved the use of grant funds.”

ENCOURAGING TIMELY SUBMISSION OF PAPERS TO THE NIHMS & THE COMPLETION OF THE SUBMISSION PROCESS

- Effective August 21, 2009, an NIHMSID may be used to indicate compliance with the Public Access Policy for up to three months after a paper is published.
- After that period, a PMCID must be provided in order to indicate compliance. Specifically:
 1. If an applicable paper is in press, or was published less than three months before the submission of an application, proposal or report, the awardee must include either a PMCID or an NIHMSID at the end of the full citation.
 2. If an applicable paper was published three or more months before an NIH application, proposal or report is submitted, the awardee must include a PubMed Central Reference number (PMCID) at the end of the full citation for the paper. An NIHMSID is not acceptable in this case.

WHEN AN NIHMSID IS INVALID & NO LONGER ACCEPTABLE EVIDENCE OF COMPLIANCE WITH THE NIH PUBLIC ACCESS POLICY.

- NIH calculates delay periods and compliance deadlines related to the Public Access Policy based on the uses the Publication Date [DP] field in PubMed.
- NIH uses the following default publication dates when the publication date in the article's citation is not in the month-day-year format:

Publication Date	Default Publication Date Used by NIH
Year Only	Jan 1
Winter	Jan 1
Spring	April 1
Summer	July 1
Fall	Oct 1
Month	The first of the month
Month Range	The first of the first month (i.e. Jan/Feb – Jan 1; April-June – April 1)

If an article has an ePub date that is later than the default date listed in the table above, NIH will use the ePub date as the publication date for calculations.

CONVERTER TO FIND PMCID & NIHMSID FROM PMID

- Given a set of PubMed IDs (PMIDs) you can use this converter to obtain the corresponding PMCIDs and/or NIHMS IDs if they exist.
- A PMCID will be available if the article is in PubMed Central (PMC).
- An NIHMS ID will be available if the manuscript has been deposited via the NIH Manuscript Submission (NIHMS) system.
- The tool is able to process maximum 2000 IDs in a single retrieval. If you have a larger number of IDs, split your list into smaller subsets for consecutive retrievals.

Full text links

FREE Full Text Article at
www.pnas.org

Free in **PMC** free
full-text
archive

METHOD B

- Some publishers will deposit an individual final published article in PubMed Central upon author request, and generally for a **fee**.
- The final published article is the journal's authoritative copy of the paper, including all modifications from the publishing peer review process, copyediting and stylistic edits, and formatting changes.

PUBLISHERS THAT WILL DEPOSIT A SPECIFIC PAPER IN PUBMED CENTRAL ON REQUEST

- The table

http://publicaccess.nih.gov/select_deposit_publishers.htm#d

lists publishers that will support authors in posting papers to PMC, either using Method B or Method D.

- If a journal is not listed under Method A, and the journal publisher is not listed on the table, authors must use submission Method C and deposit the final peer-reviewed manuscript in PMC via the NIH Manuscript Submission system (NIHMS).

METHOD C

- Grantee, author or a delegate deposits final peer-reviewed manuscript into PMC via the NIHMS.
- We will be focusing on Method C in this lecture.

METHOD D

- A variation of Method C, some publishers deposit the manuscript files in the NIHMS, provide contact information for a grantee or corresponding author, and designate the number of months after publication when the paper may be made publicly available in PMC.
- Designated approver completes submission of final peer-reviewed manuscript deposited by publisher in the NIHMS.
- Authors or awardees are responsible for ensuring that the manuscript is deposited into the NIHMS upon acceptance for publication.

METHOD C

TIMING

- Grant awardees are responsible for ensuring that the manuscript(s) are submitted to NIHMS upon acceptance for publication.
- Grant awardees are also responsible for seeing that all the steps involved in the NIHMS process be completed within three months of publication.

**SUBMITTING A FINAL
PEER-REVIEWED MANUSCRIPT
VIA THE NIH MANUSCRIPTS SYSTEM (NIHMS)**

THE SUBMISSION PROCESS INVOLVES THREE TASKS

WHAT CANNOT BE DEPOSITED

- Final PDF version of the published article
- Page/galley proofs
- Both of the above versions fall under copyright

NIH Manuscript Submission System

Release delay

Release to PubMed Central after publication in the journal.

Endorse

By checking this box I **certify** that I comply with following submitter requirements:

- I am submitting the manuscript "Alcohol Use and Cigarette Smoking as Risk Factors for Post-Endoscopic Retrograde Cholangiopancreatography Pancreatitis" to the NIH Manuscript Submission system on behalf of the **contact person selected above**.
- The version deposited includes all changes resulting from the peer review process.
- the **contact person selected above** has been informed that he/she will receive e-mail confirmation of this action and that in order to complete the submission process, he/she will have to log in to the NIHMS to review and approve the submitted manuscript.

[Go to Manuscript List](#)

 [Approve](#)

APPROVAL OF DEPOSIT

- After the submitted manuscript has been processed and prepared for PubMed Central (PMC), an email will be sent to the designated approver.
- Only the designated approver can approve the submitted manuscript and complete the submission.
- The approver will be notified via email to approve or request corrections of the PMC-ready PDF manuscript.

DEMONSTRATING COMPLIANCE WITH THE PUBLIC ACCESS POLICY

- Including an NIH Manuscript Submission Reference Number (**NIHMSID**) in lieu of a **PMCID** at the end of a full citation.
- The **NIHMSID** is a temporary substitute for a **PMCID**.
- NIHMSID is used only in cases where an awardee needs to cite a paper soon after its acceptance by a journal, when there is not enough time to complete every step of the NIH manuscript submission process.
- A NIHMSID may be used to indicate compliance with the Public Access Policy for up to **three months** after a paper is published.
- After three months, a PMCID must be provided in order to indicate compliance.

SHOWING COMPLIANCE BY THE NUMBERS

1. PMCID: PMCID#####
2. Or, NIHMSID: NIHMSID#####
3. Or if the journal automatically deposits: PMC Journal - In Process

NOTICE NUMBER: NOT-OD-10-103

- Issued on June 10, 2010 by NIH
- My Bibliography in My NCBI is to be used by eRA Commons users to manage their professional bibliographies, associate publications with their grant awards, and ensure compliance with the NIH Public Access Policy.

COLOR-CODED KEY IN MY BIBLIOGRAPHY

INDICATING COMPLIANCE

- A red dot indicates that an article is **non-compliant**.

 Public Access Compliance: Non-compliant. [Citation not in NIHMS or PMC](#)
[NIH Funding](#): No funding has been associated with this citation.

- A yellow dot means that the citation has been submitted to the NIH Manuscript Submission system and is considered **in process**.

 Public Access Compliance: PMC Journal – In Process
[NIH Funding](#): No funding has been associated with this citation.

- A green dot indicates that the citation is **compliant** with the NIH Public Access Policy. Note that the PMCID number displays in this status.

 Public Access Compliance: Complete. PMCID: [PMC2632597](#)
[NIH Funding](#): No funding has been associated with this citation.

- Articles that were accepted for publication prior to April 7, 2008 are not covered by the NIH Public Access Policy. These citations will be marked as N/A for **Not Applicable** (this status is also automatically applied to citation types that are not journal articles, e.g., book chapters, patents, presentations).

 Public Access Compliance: Not applicable
[NIH Funding](#): No funding has been associated with this citation.

- A question mark indicates that compliance with the NIH Public Access Policy cannot be determined without additional information. Click on the question mark icon or the "Edit Status" link to enter supporting information for the citation.

 Public Access Compliance: [Edit Status](#)
[NIH Funding](#): No funding has been associated with this citation.

ASSIGNING A DELEGATE TO MANAGE MY BIBLIOGRAPHY

P.I.s may assign delegates to populate & maintain their publication lists. This person should already have a My NCBI account; if not, they should create one before the P.I. gives permission.

STEPS FOR ASSIGNING A DELEGATE

- Sign in to My NCBI.
- Before the process of assigning a delegate can proceed there must be at least one publication from PubMed listed.
- Click Edit My Bibliography Settings.
- Click Add a Delegate.
- Enter the delegate's email address.
- Click Add Delegate
- The delegate will receive an email in which the delegate must confirm by clicking on a link in the email.

Add citation

Add PubMed Citation

Choose the type of citation to create:

Citation from PubMed

- Citation from PubMed
- Manual citation (for articles that do not appear in PubMed)
- Books and Chapters
- Meeting abstracts
- Presentations
- Patents
- Other (non-standard citation)

PubMed citations can be added to the right side of a PubMed results page.
