ORCID:<http://orcid.org/0000-0003-4422-5490>

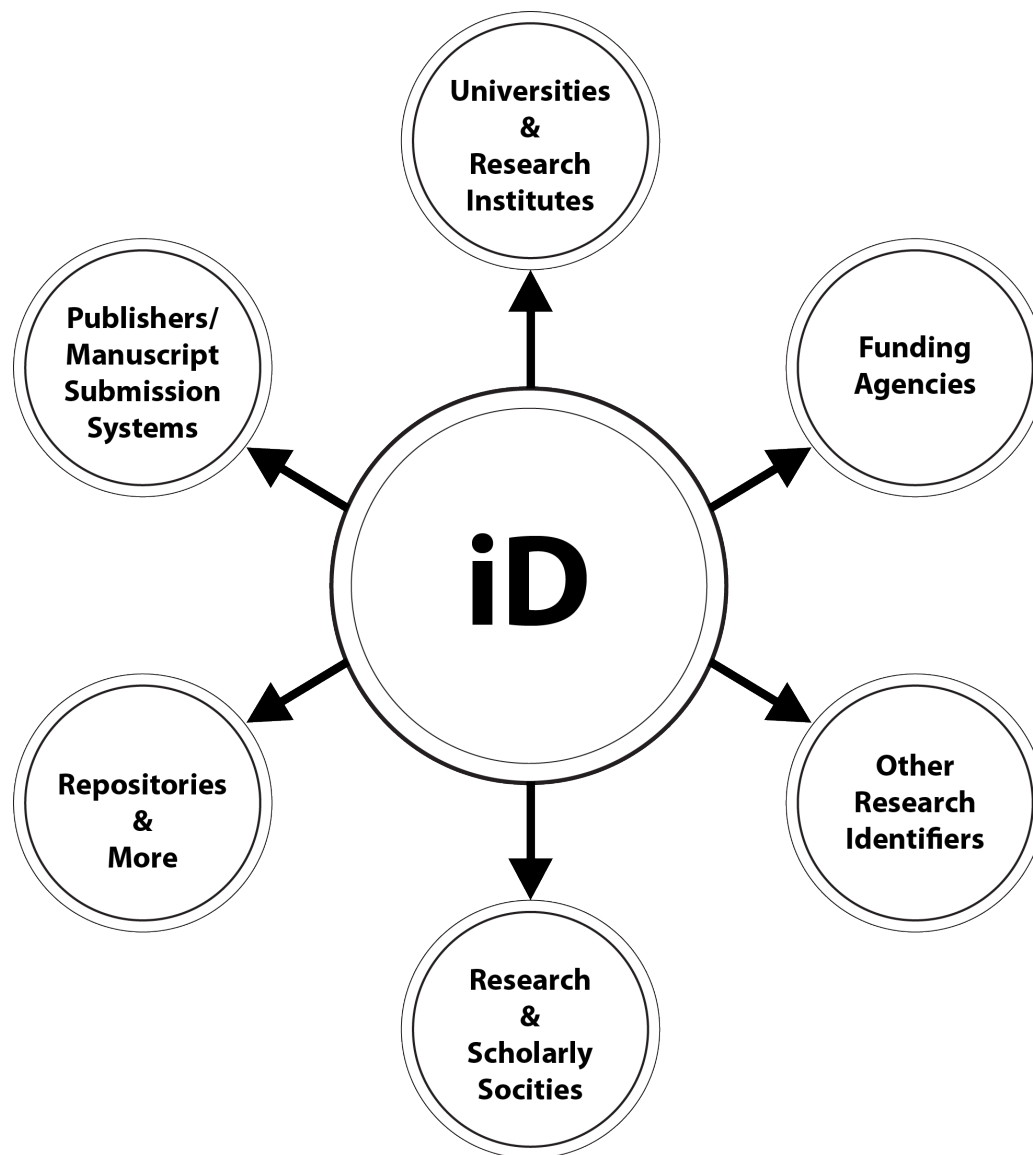

OPEN RESEARCHER AND CONTRIBUTOR ID (ORCID)

- Among the thousands of authors publishing all over the world, some have distinctive surnames; some publish under multiple names—J.A.S. Sørensen, J.Aa. S. Sørensen, J.Åge S. Sørensen, J. Aage S. Sørensen, J. Åge Smærup Sørensen or J. Aage Smaerup Sørensen.
- A researcher's name is insufficient to reliably identify the author of, or contributor to, an article published in a journal or in a dataset uploaded to a repository.
- The ORCID initiative was launched on October 16, 2012 with the aim of solving the name ambiguity problem in publishing.
- ORCID is an open, non-profit initiative and registering is “free”.

ORCID is a hub connecting the research landscape.

ORCID TASK FORCE

Steps for Implementation

Implementation

In December, 2012, MLibrary signed a Member License Agreement with ORCID which allows us to:

- create ORCID records,
- deposit to existing ORCID records, and
- use various APIs and the data those APIs can access to perform tasks associated with ORCIDs.

Assigning ORCID^s

- Allow the University to obtain existing ORCID^s for faculty who have associated the ORCID with a umich.edu email address.
- Allow the University to assign new ORCID^s for all faculty and staff at the University of Michigan who publish either by (1) manual entry or (2) batch mode.

ORCID*s* Assigned To

- All librarians ~ 125
- All faculty in the University of Michigan Department of Human Genetics
- All faculty in the University of Michigan Department of Computational Medicine and Bioinformatics
- All faculty in the University of Michigan Department of Molecular & Integrative Physiology

Incorporate ORCID into UM Online Systems

A directory of people & groups at UM

- The MCommunity Directory contains profiles for all current members of the university community—students, faculty, staff, alumni, and sponsored affiliates—on all three campuses (Ann Arbor, Dearborn, and Flint).
- By incorporating ORCIDs into and traveling along with MCommunity records our researchers need only remember their unickname.

- M-CV is the Medical School Faculty Curriculum Vitae online system.
- All UM Medical School faculty must have an M-CV.

Incorporating ORCID[®]s into Michigan Experts

A searchable database of research expertise across disciplines from several schools/colleges or institutes at the University of Michigan.

E.g. blood pressure

By Concept By Last Name By Free Text

Home

Welcome!

Michigan Experts is a searchable database of research expertise across disciplines from several schools/colleges or institutes at the University of Michigan. It has been developed to foster intramural and extramural collaborations, and interdisciplinary research to expand knowledge. While this tool is not comprehensive of all faculty members, nor exhaustive of individual productivity or expertise, it offers a rich representation of research talent and knowledge within the preeminent research enterprise at the University of Michigan. We invite you to search the database by concept, individual name, or "free text" excerpt (such as an abstract or RFA) to discover researchers, understand research expertise, and visualize connections among researchers.

 Practical Cardiology: Evaluation and Treatment of Common Cardiovascular. 3rd. Baliga RR, Eagle KA, editors. 2015.

Next Steps

- Build a web application for researchers to self-report their current iDs or to self-provision or “mint” new ORCID iDs.
- Onboarding/auto provisioning of ORCID iDs for future employees and potentially doctoral students.
- Continued outreach to professional schools and departments.
- Finalizing the new Committee on Institutional Cooperation (CIC) consortial contract with ORCID.
