

# Digital Publishing and Preservation using XML

**Kevin S. Hawkins**

**Paul Schaffner**

**Rebecca Welzenbach**

November 16, 2010 • University of Michigan Library

# What we will do today:

- Talk about XML in general and the TEI in particular—what it is, and what it's good for
- Learn the parts of a TEI document
- Tackle hands-on exercises using the `<oXygen/>` XML editor
- Consider how to approach encoding projects thoughtfully and practically
- Point out some tools and resources to learn more

# What we won't do today:

- Memorize every element and attribute recommended by the TEI Guidelines

# Proposed Agenda:

8:30–9	Refreshments and computer setup
9–9:30	Welcome and Lecture: Introduction to XML
9:30–10:30	Exercise: Document analysis
10:30–10:45	Break
10:45–11:45	Exercise: TEI encoding 1
11:45–12	Lecture: What can you do with encoded texts?
12 a.m. – 12:15	Lecture: Introduction to the TEI header
12:15–1:00	Lunch
1:00–2:00	Exercise: TEI encoding 2
2-2:15	Lecture: How to publish your XML
2:15--2:30	Break
2:30–3	Lecture: Digitization and preservation using XML
3:00–4:00	Exercise: TEI encoding 3
4-4:15	Conclusion and feedback
