The Ethereal Library: Thinking Creatively When You Have No Space To Think

Southeastern Michigan League of Libraries Fall Meeting
November 21, 2014 – Madonna University
Corey Seeman – Kresge Library Services (University of Michigan)

Overview

- Two Spaces of the Library
- About Kresge and Ross Construction
- Planning and Rebuilding
- Parameters of the Ethereal Library (6P Approach)
- The Big Changes
- Providing Value With New Constraints
- Closing Thoughts & Questions

The Two Spaces of the Library

- In Library as Space Program in 2013 (Michigan Library Association) – I shared the notion that the Library had two spaces:
  ~ A physical space
  ~ An ethereal space
- They provide distinct functions and benefits to the communities we serve.
- Both can be critical for the members of the library’s communities.

Physical Space

- Physical space is used for:
  ~ Study
  ~ Print Materials
  ~ Interaction Spaces
  ~ Walk-in Access
- For many functions - a physical space can be managed just as well by others.
- Print collections might be 2% of the usage – but 50% of the perception of the library

Ethereal Space

- This is where we connect with our community.
- This is where we provide clarity to a complicated information universe.
- This is where we contribute as a “Value-Add.”
- This is where we SHINE!

Ethereal Space

- With nearly 98% of our usage from electronic resources* – librarians and library staff can operate from almost anywhere
- As Gershwin said well – with ethereal space – “They Can’t Take That Away from Me”

* The Business Library Experience
If You Could Have Only One Space?

- Would you elect to save your physical or ethereal space?
- What if the decision was made for you?
- Space is a luxury on academic campuses – and with that – we lost ours.
- Some engagement, but no open discussion with the community.
- With a large construction project, we lost both student and collection space...

Kresge Business Administration Library

- Built in mid 1980s to serve the research and curricular needs of the Ross School of Business
- We are open 108 hours during the Fall and Winter Terms.
- Seating for nearly 700 students.
- Very visible, located in the center of the Ross Complex (27K square feet).
- We have a collection of over 140,000 volumes in Ann Arbor and Flint (where they are stored at the University of Michigan-Flint)
- Constant state of “Library Erosion”

Ross Construction Project

- Summer 2013 – Scope of plans shared*
- September 2013 – Gift announced
- Early 2014 – Plans developed
- End of Winter Term – Started vacating the building
- June 2014 – Moved to MToewn
- July 2014 – Print moved out
- Fall 2014 – Rebuilding Kresge Library Services

Losing Your Physical Space

- You have to come to grips with what this means
- We are not a student destination any longer for study
- We cannot be format agnostic in collecting
- You cannot dwell on the past – you have to…well...

Establishing Priorities

- Corey’s planning priorities:
  1. Staff
  2. Services
  3. Stuff (and spend)
  4. Space
- Build services based on what you have, not what you had.
- We had no choice but to build an Ethereal Library!

...And Building for the New

- Parameters of the Ethereal Library (6P Approach)
  - Philosophical
  - Patient
  - Positive
  - Proactive
  - Perform
  - Ms. Pirkola’s Rules
6P Approach: Philosophical

- This is an opportunity to also be freed from what worked and did not work from the past.
- With less space – do not try to recapture everything you did – it will not work.
- Don’t be bound by the past – “Forget the Alamo” – Lone Star (John Sayles – 1996)

- This is the time to think about what our value is and how to continue with the new constraints.
- Brain-storming about creating service points – real and virtual.
- Failure is an option – it allows us to be entrepreneurial and try things out.
- Allows us to change the vision for the new staff space.
- Build as you go!

6P Approach: Patient

- Elisabeth Kübler-Ross' Five Stages
  - Denial
  - Anger
  - Bargaining
  - Depression
  - Acceptance
- Everyone is moving through this at their own pace – Important for this level of change.
- Every time someone says “Change is Hard” – it becomes harder…

- Don’t expect to have everything mapped out on day 1, or day 100 for that matter!
- Things cannot change overnight.
- A “born digital” library is much easier to build that a “becoming digital” library.

Quick Change at Toledo Mud Hens – September 2009

6P Approach: Positive

- It is very easy to be mired in self-doubt with this type of contraction.
- The image of loss cannot be your brand or how you are seen.
- Important to not dwell on decisions that do not benefit you in these projects.

- There are also some actual positives about not having a public space.
- No longer have to worry about evenings and weekends in bad Michigan weather…
6P Approach: Positive

- Positive approach to a situation is about making the best of it – *this takes a while to get to*.
- How can we continue to meet the needs of the school and the number of communities we serve?
- Our work is reflective of us more than our situation.
- Despite everything - rather be happy than angry.

6P Approach: Proactive

- The biggest issue is that we will be out of sight.
- We need to be more proactive about doing outreach and connecting with faculty and students.
- We use all virtual reference systems (chat & email) – need to push them more.
- *Being visible is our biggest need right now.*

6P Approach: Proactive

- I have been a strong proponent of the Reference Desk – even as many libraries are moving away from that.
- We experimented with a reference service point at Tozzi Center, but it was not ideal.
- We were given the front desk in the Ross Modular Offices – flipped it from Welcome Desk to Reference Desk.
- Having visible staff is important – but they need a good place to work from!

6P Approach: Perform

- In this change, there was never an issue about Kresge Library as a service point.
- That was what *kept* us going.
- That has to be what *keeps* us going.

6P Approach: Perform

- Kresge Library has been the Service 'champs' at Ross.
- Great source of internal pride and motivation.
- This is the reason why our work (and staff) are separated out from the space.

### 6P Approach: Perform

- Since we have lost our space – it is all about service.
- We need to be creative in how we deliver services to our community.
- Pay close attention to what they need.
- Experiment and change are critical elements.

### 6P Approach: Ms. Pirkola’s Rules

- Flexibility!
- It has to work in all directions.
- We also need to be flexible with staff as they learn to work with these new confines.

### 6P Approach: Ms. Pirkola’s Rules

- Balance is critical
  - Empathy for patrons and staff need to be balanced against each other.
    - The more we provide for patrons, the more we lean on staff.
    - The more we provide for the staff, the less we provide for patrons.

### The Big Changes

**Managing associated changes to services for the Ross Community**

### The Big Changes – Existing Programs

- Embedded Librarian program for MAP and Action-Learning continues at Kresge.
- New embedded librarians for entry core class for all BBA Sophomores (500). Librarians are assigned to every section (14) to support their research on a company & response to a social issue. (MERGE)
- Faculty Research Service
- Continue to support other student research (coursework, clubs, careers, case competitions & curiosity)

- Coursepack & Curriculum Support – Moved to Study.net with Kresge Support.
- Previously a print solution – but we did not have a large enough distribution point during construction.
- Community and Alumni assistance (without walk-in access).
- Move remaining print holdings to electronic access.
The Big Changes – New Programs

- Exam/Assignment Program
  - Many faculty do not want to hand back assignments in class.
  - Some faculty also do not let students keep completed exams.
  - This service ran as a pilot in Winter Term and will go to the Library in the Fall.

The Big Changes – New Programs

- Modular Office Welcome Desk
  → became Kresge Reference Desk.
- Pickup Location for ILL and Other Deliveries from University Library
- Added Global MBA to our course materials operation
- Evening/Weekend Remote Reference

Providing Value With New Constraints

- Great deal of discussion about the “value” of the academic library.
- The need for this discussion could be an indication that we’ve reached a “tipping point.”
- If we think about the changes to other industries (automotives, pharmaceuticals, journalism, etc.), few are operating as they’d like.

Providing Value With New Constraints

- Our “old” value proposition:
  - Space for students to study
  - Space for physical collections (in all formats)
  - Strong historical collection
  - Strong electronic collections

Providing Value With New Constraints

- Our “new” value proposition must:
  - Live within the restrictions of virtually no collection space.
  - Figure out new collaboration mechanisms to serve our community.
  - Move away from the model where we provided student study space.
  - Focus on what we can do vs. what we have done.

Providing Value With New Constraints

- Our “new” value proposition remains:
  - Using the resources at our disposal, we will support the curricular and research needs of the Ross Community.
  - We will acquire resources only where we have the means to store or manage them.
  - Seek out new opportunities to provide services for the school & campus.
  - Embrace our new reality.
Closing Thoughts & Questions

- Big Win on Staffing
- What does the future hold?
- Where is the Long Tail?
- What’s in a Name?
- Are we the Canary in the coal Mine?

Big Win on Staffing

- The premise with this reduction has been space and space alone.
- We have been able to move forward with redeployed staff.
- No full-time staff losses related to this move.
- Temporary Staff counts way down (no need for full evening staff).

What does the future hold?

- Few certainties for academic libraries.
- I believe that most libraries will continue to lose space until it is mostly gone.
- We need to be nimble and flexible to meet the needs of the school – this secures the future of the library.
- We need to be focused on the end-user of the library resources.

Where is the Long Tail?

- Print collections are built on needs both now and down the road.
- Many items are used in 10 or 20 years – but will libraries have space to see that materialize?
- Long-term ROI appears to contract in an electronic-only Information environment.

What’s in a Name?

- Changing our name to Kresge Library Services
- We are no longer a “destination” or a library in the traditional sense.
- The print holdings were 2% of our use, but 50% of our perception.
- Even though “Kresge” will belong to the building – “Kresge Library” has great brand recognition at Ross.

The Canary in the Coal Mine

- Are departmental/branch libraries the “canary in the coal mine?”
- Is the canary just sleeping?
- Our space contraction appears to be the future of libraries everywhere – we just had it happen all at once.
- We were saved by service!
- Should we just be happy with what we have left…like a squirrel with a churro.
Thank You
