- **Gapminder**
  Presents interactive global statistics using visuals, facts, and videos.
- **Social Explorer**
  Provides easy access to demographic information about the United States, from 1790 to present; Create maps and reports.
- **STA/Compiler**
  Make custom tables, graphs, and charts based on hundreds of demographic and health indicators across over 70 countries.
- **World Population Interactive Map**
  Data on global, regional, and country maps and tables; includes 15 indicators organized into six topic areas: population, births and deaths, life expectancy, family planning, income, and environment.
General Tips

- Start off searching for international statistics in the list of comprehensive databases. If you are looking for more specific information, try using the resources listed under the "Regional & National Statistics" tab.
- When searching online, it helps to be specific. Type the name of a country or region, the topic you are looking for, and key words such as "statistics, data, charts, trends, graphs, etc."
- If you know the language of the country you need statistics for, try searching in that language.
- To change the language of a statistics page, look in the top right-hand corner for country abbreviations or flags. Most government pages have English as a language option.
- Some countries have separate websites for census information or official banks. Search for these specifically.
- Remember to always cite resources that you find statistics from.

Sample Research Question

You are writing an essay for your International Studies 101 course, and you have chosen to research the progress of the Millennium Development Goals in Kenya between 2000-2015.

To access a Google document with step-by-step instructions on finding statistics for this topic, please click here.
