General Tips

- Start off searching for international statistics in the list of comprehensive databases. If you are looking for more specific information, try using the resources listed under the "Regional & National Statistics" tab.
- When searching online, it helps to be specific. Type the name of a country or region, the topic you are looking for, and key words such as "statistics, data, charts, trends, graphs, etc."
- If you know the language of the country you need statistics for, try searching in that language.
- To change the language of a statistics page, look in the top right-hand corner for country abbreviations or flags. Most government pages have English as a language option.
- Some countries have separate websites for census information or official banks. Search for these specifically.
- Remember to always cite resources that you find statistics from.

Sample Research Question

You are writing an essay for your International Studies 101 course, and you have chosen to research the progress of the Millennium Development Goals in Kenya between 2000-2015.

To access a Google document with step-by-step instructions on finding statistics for this topic, please click here.
