International, Regional, and National Data Sets

Hermiz, Mena

https://hdl.handle.net/2027.42/113202

Downloaded from Deep Blue, University of Michigan’s institutional repository
International, Regional, and National Data Sets: International Statistics

**International Statistical Resources**

- **International Financial Statistics (IFS) Database**
  Contains approximately 32,000 time series on the finances of over than 200 countries and areas worldwide

- **Nation Master**
  A vast compilation of data from hundreds of sources, that can be compared across different themes and countries

- **OECD Statistics**
  The online statistical platform of the OECD, contains a variety of statistics organized by theme and country

- **ProQuest International Data Sets**
  Sub-national data for countries of the world from national governments, IGOs, and private firms

- **UN Data**
  Contains official statistics produced by countries and compiled by United Nations data system

- **World Bank e-Library**
  Online, fully cross-searchable and browsable collection of over 3,800 World Bank publications and policy research working papers

- **World Health Organization**
  A branch of the United Nations that compiles data and reports on global health issues, organized by theme and country

**Statistical Resources by Region**

**Clickable World Map**

**List of Regions**

- North America
- Latin America and the Caribbean
- Europe
- Middle East and Northern Africa
- Sub-Saharan Africa
- Russia and Central Asia
- East Asia
- South Asia
- Southeast Asia
- South Pacific

**About**

This research guide was designed in collaboration with the Asia Library and International Studies. For further information, please refer to the individual "Regional & National Statistics" pages, which include specific resources and contact information for subject specialists.

General Tips

- Start off searching for international statistics in the list of comprehensive databases. If you are looking for more specific information, try using the resources listed under the "Regional & National Statistics" tab.
- When searching online, it helps to be specific. Type the name of a country or region, the topic you are looking for, and key words such as "statistics, data, charts, trends, graphs, etc."
- If you know the language of the country you need statistics for, try searching in that language.
- To change the language of a statistics page, look in the top right-hand corner for country abbreviations or flags. Most government pages have English as a language option.
- Some countries have separate websites for census information or official banks. Search for these specifically.
- Remember to always cite resources that you find statistics from.

Sample Research Question

You are writing an essay for your International Studies 101 course, and you have chosen to research the progress of the Millennium Development Goals in Kenya between 2000-2015.

To access a Google document with step-by-step instructions on finding statistics for this topic, please click here.
