International, Regional, and National Data Sets

Hermiz, Mena

<https://hdl.handle.net/2027.42/113202>

<http://creativecommons.org/licenses/by-nc/4.0/>

Downloaded from Deep Blue, University of Michigan's institutional repository

Step 1: You are writing an essay for your International Studies 101 course, and you have chosen to research the progress of the Millennium Development Goals in Kenya between 2000-2015.

Step 2: You find qualitative information by searching through books, scholarly articles, and credible websites.

The screenshot shows the homepage of the University of Michigan Library. At the top, there is a navigation bar with the library logo, "LIBRARY UNIVERSITY OF MICHIGAN", and links for "My Account", "Favorites", and "Log in". Below this is a secondary navigation bar with "Services", "Libraries & Departments", "About", "MGet It", "Search Tools", and "Catalog (Mirlyn)". A search bar is prominently displayed with a "Search" button and a dropdown menu for "Recommended Resources by Subject".

The main content area is divided into several sections:

- Quick Links:** A vertical list of links including "Research Guides", "Library Floor Plans", "Study Spaces", "Online Journals", "New Resources", and "Library Blogs".
- Frequently Used Databases:** A list of databases including "PubMed @ U-M", "Google Scholar", "PsycINFO", "JSTOR", "Web of Science", "ProQuest", and "WorldCat".
- Spotlight:** A featured section with a large image of a person's head in profile, looking at a screen displaying a movie poster for "A METEOR FROM MARY". To the right of the image is the text "Better Than Netflix" and a paragraph describing the Askwith Media Library's collection of 24,000 DVDs in over 30 languages. A small credit line reads "Detail from photo by Judy, courtesy of Flickr. (CC BY-NC-ND 2.0)".
- Events & Exhibits:** A list of upcoming events and exhibits, including "Student Research: Spatial Projects" (July 27, 10:00AM - 11:30AM), "Go Figure" (July 8 - Aug. 20), and "Orson Welles: Beyond the Canon and into the Archives" (April 29 - Sept. 16).
- News & Announcements:** A list of news items, including "Faculty Spotlight: Video Game Archivist", "Library Announces 2014-2015 Undergraduate Research Award Recipients", and "Unfinished Memoir Highlights Orson Welles Acquisition".

The homepage of the U-M Library, <http://www.lib.umich.edu>, provides quick access to links and databases that contain research information.

[HTML] "Delivering" on the MDGs?: equity and maternal health in Ghana, Ethiopia and Kenya [HTML] from nih.gov
Availability at UMichigan

M Wirth, E Sacks, E Delamonica... - East African journal of ..., 2008 - ncbi.nlm.nih.gov

Objective (s) The Millennium Development Goals (MDGs) have put maternal health in the mainstream, but there is a need to go beyond the MDGs to address equity within countries. We argue that MDG focus on maternal health is necessary but not sufficient. This paper ...

You access the "Google Scholar" homepage to find more articles. It is available under the "Frequently Used Databases" list on the MLibrary homepage, or by Google searching "Google Scholar". However, make sure you are signed into your U-M account before using Google Scholar, since having a university affiliation provides you with access to a further range of scholarly articles.

Step 3: You decide that you would like to include statistical information to back up your research and provide numerical evidence of the country's development. You begin by searching under some of the comprehensive statistical databases featured under the "International Statistics" tab of this research guide. Knowing that the Millennium Development Goals were established by the United Nations, you think that "UN Data" would be a great portal to start with.

International Statistical Resources

- **International Financial Statistics (IFS) Database**
Contains approximately 32,000 time series on the finances of over than 200 countries and areas worldwide
- **Nation Master**
A vast compilation of data from hundreds of sources, that can be compared across different themes and countries
- **OECD Statistics**
The online statistical platform of the OECD; contains a variety of statistics organized by theme and country
- **ProQuest International Data Sets**
Sub-national data for countries of the world from national governments, IGOs, and private firms
- **UN Data**
Contains official statistics produced by countries and compiled by United Nations data system
- **World Bank e-Library**
Online, fully cross-searchable and browsable collection of over 3,900 World Bank publications and policy research working papers
- **World Health Organization**
A branch of the United Nations that compiles data and reports on global health issues, organized by theme and country

Step 4: However, a quick search of “Kenya Millennium Development Goals” brings up ZERO results. Thankfully, UN Data instead provides a direct link to its “Millennium Development Goals Database.” You click on this, and are directed to a list of datasets, with the tab for MDGs already opened.

The screenshot shows the UNdata website's search interface. At the top left is the UNdata logo with the tagline "A world of information". To its right are navigation links for "Data", "Glossary", "Metadata", "API", and "More". A search bar contains the text "kenya millennium development goals" and a "Search" button. On the top right, there are social media icons for Facebook, Twitter, and a feedback icon. Below the search bar, a blue header bar displays "Results" on the left and "0 results found for kenya millennium development goals. (0.25 seconds)" on the right. A light green box below the header suggests: "For millennium development goals also try: Millennium Development Goals Database". A yellow box contains a warning icon and the message: "We did not find any results for: kenya millennium development goals. Please try the suggestions below to help refine your search." Underneath, a section titled "Suggestions:" lists four bullet points: "Try searching the data series content with your keywords.", "Try more general keywords.", "Try fewer keywords.", "Make sure all words are spelled correctly.", and "Try different keywords."

Africa's largest gene bank helps to bolster biodiversity

In the top left-hand corner of the page, there is a drop-down menu entitled “UNDP around the world”. Scrolling over this will give you a list of countries, where you can find further information on development and the MDGs.

Step 7b: Next, you could also try some of the other comprehensive international statistics databases featured on the first tab of this guide. For example, OECD statistics has an option to browse by theme and country.

The screenshot shows the OECD iLibrary website interface. At the top, there is a search bar with the text "Search for publications and data" and "Advanced Search" below it. To the right of the search bar are links for "Search Tips" and "日本語 Français Welcome UNIVERSITY OF MICHIGAN". Below the search bar is a navigation menu with tabs for "Browse by Theme", "Browse by Country", "Browse by Theme & Country", "Catalogue", and "Statistics". The "Browse by Theme & Country" tab is active. Below the navigation menu, there is a heading "Select one or more items in one or both lists to browse for the relevant content". There are two columns of checkboxes: "Theme" and "Country". The "Theme" column has 20 items, with "Development" checked. The "Country" column has 18 items, with "Kenya" checked. To the right of these columns is a summary box that says "Browse the selected Themes and/or countries" with a right arrow, and below it, "[1 theme selected]" and "[1 country selected]".

Step 7d: external resources - from google and on this guide (?)

Step 8: You include the statistical data in your research paper, making sure to properly cite the sources you used in finding this data, according to your teacher's guidelines.

The screenshot displays the Purdue OWL Online Writing Lab website. At the top left is the logo for 20 OWL Purdue University. The main title is "Online Writing Lab". Below the title is a navigation menu with links for "Purdue OWL", "Writing Lab", "OWL News", "Engagement", "Research", "Contact", and "Site Map". A secondary menu lists "General Writing", "Research and Citation", "Teaching and Tutoring", "Subject-Specific Writing", "Job Search Writing", and "ESL". The breadcrumb trail reads "OWL Family of Sites > OWL > Research and Citation".

On the left side, there is a search bar with the text "Search the OWL" and a "GO" button. Below the search bar is a vertical list of menu items: "Research and Citation", "Conducting Research", "Using Research", "APA Style", "MLA Style", "Chicago Manual 16th Edition", and "Giving to the OWL".

Below the menu items is a section titled "Suggested Resources" with a list of links: "-MLA Guide", "-MLA OWL Mail FAQs", "-APA Guide", "-APA OWL Mail FAQs", "-How to Navigate the New OWL", and "-Media File Index".

The main content area is titled "Research and Citation Resources". Below the title is a yellow box with the text: "If you are having trouble locating a specific resource please visit the [search page](#) or the [Site Map](#)." Below this box are three sections:

- Conducting Research**: These OWL resources will help you conduct research using primary source methods, such as interviews and observations, and secondary source methods, such as books, journals, and the Internet. This area also includes materials on evaluating research sources.
- Using Research**: These OWL resources will help you use the research you have conducted in your documents. This area includes material on quoting and paraphrasing your research sources, as well as material on how to avoid plagiarism.
- APA Style**: These OWL resources will help you learn how to use the American Psychological Association (APA) citation and format style. This section contains resources on in-text citation and the References page, as well as APA sample papers, slide presentations, and the APA classroom poster.

Below the APA Style section are two more sections:

- MLA Style**: These OWL resources will help you learn how to use the Modern Language Association (MLA) citation and format style. This section contains resources on in-text citation and the Works Cited page, as well as MLA sample papers, slide presentations, and the MLA classroom poster.
- Chicago Manual of Style**: This section contains information on the Chicago Manual of Style method of document formatting and citation. These resources follow the 16th edition of the Chicago Manual of Style, which was issued in September 2010.

Step 1: You are writing an essay for your International Studies 101 course, and you have chosen to research the progress of the Millennium Development Goals in Kenya between 2000-2015.

Step 2: You find qualitative information by searching through books, scholarly articles, and credible websites. You start by browsing databases provided by the MLibrary homepage (<http://www.lib.umich.edu>), and use the advanced search option provided by Articles Plus (<http://www.lib.umich.edu/articlesplus/advanced>).

Step 2b: You access the “Google Scholar” homepage (<https://scholar.google.com>) to find more information. You make sure you are signed into your U-M account, since having a university affiliation provides you with access to a further range of articles.

Step 3: You decide that you would like to include statistical information to back up your research and provide numerical evidence of the country’s development. You begin by searching under some of the comprehensive statistical databases featured under the “International Statistics” tab of this research guide. Knowing that the Millennium Development Goals were established by the United Nations, you think that “UN Data” (<http://data.un.org>) would be a great place to start.

Step 4: However, a quick search of “Kenya Millennium Development Goals” brings up ZERO results. Thankfully, UN Data instead provides a direct link to its “Millennium Development Goals Database” (<http://data.un.org/Explorer.aspx?d=MDG>). You click on this, and are directed to a list of datasets, with the tab for MDGs already opened.

Step 5: However, since you are looking for information related specifically to Kenya, you click on the green “i” next to “Millennium Development Goals Database” to find that there is a direct link to “Online Data,” which takes you to a webpage that contains more specific information (<http://mdgs.un.org/unsd/mdg/Data.aspx>).

Step 6: Now, you are able to search directly for MDG progress in Kenya. The results can be organized by “indicator” or “country.” On the same website, you can also find more information using the drop-down tabs featured at the top.

Step 7: You may want to explore other methods for finding statistics, to compare data and gain a wider range of information on the same topic.

Step 7a: First, you could try exploring the UN Data website in more detail. On the homepage, you can see that there is a list of icons at the bottom, which belong to individual United Nations organizations. Clicking on the icons takes you to a new page with additional data portals (<http://data.un.org/Partners.aspx>). The United Nations Development Programme (UNDP) is the organization specifically responsible for creating and monitoring the Millennium Development Goals. The link for the UNDP webpage contains further information specifically focused on the MDGs, including relevant articles and data (<http://www.undp.org>).

Step 7b: Next, you could also try some of the other comprehensive international statistics databases featured on the first tab of this guide. For example, OECD statistics has an option to browse by theme and country (<http://www.oecd-ilibrary.org.proxy.lib.umich.edu/statistics>).

Step 7c: Because most countries have their own official data websites, you could also try going straight to Kenya’s government statistics page. Using this guide, and clicking on “Sub-Saharan Africa” under the “Regional and National Statistics” tab, you will find that Kenya has two separate websites that contain official statistics. Explore these pages by using the search bars or looking for data by topic.

Step 8: You include the statistical data in your research paper, making sure to properly cite the sources you used in finding this data, according to your teacher's guidelines.
