SANDRA LACH ARLINGHAUS

Lillies: Displayed in juried art fair, Ann Arbor, MI. On display in glass display case in the basement of the Ann Arbor Public Library. Later, in her apartment.

Two floral pictures on permanent display in a Consult Room at the University of Michigan Cardiovascular Center. Alma is seen here with a pacemaker technologist. Another copy of the clematis (in the distance) was on display at the Ann Arbor Public Library and later in her apartment (305) at 2115 Nature Cove. A copy of the picture in the foreground was on display in the Community Room of Nature Cove Condominiums, adjacent to its kitchen. Note: Alma did not use a wheelchair except as a matter of convenience when traversing the long hallways at The University of Michigan Medical Center. She was a patient of Dr. Kim Eagle, who encouraged her to submit her art for consideration by the panel choosing art for the Cardiovascular Center. A plaque on the wall honors her contribution.
