

Appreciation of Peer Reviewers for 2015

Noah Diffenbaugh¹, Lisa Beal², M. Bayani Cardenas³, Kim Cobb⁴, Meghan Cronin⁵, Andrew J. Dombard⁶, Tatiana Ilyina⁷, Wolfgang Knorr⁸, Benoit Lavraud⁹, Andrew V. Newman¹⁰, W.K. (Bill) Peterson¹¹, Jeroen Ritsema¹², Julienne Stroeve¹³, Joel A. Thornton¹⁴, Michael Wysession¹⁵, Paul D. Williams¹⁶

On behalf of the journal, AGU, and the scientific community, the editors would like to sincerely thank those who reviewed manuscripts for *Geophysical Research Letters* in 2015. The hours reading and commenting on manuscripts not only improves the manuscripts themselves, but it also increases the scientific rigor of future research in the field. Many of those listed below went beyond and reviewed three or more manuscripts for our journal, and those are indicated in italics. The refereeing contributions they made contributed to 6221 individual reviews of 3353 manuscripts. Thank you again. We look forward to a 2016 of exciting advances in the field and communicating those advances to our community and to the broader public.
