ASSESSING THE FUTURE OF OA MONOGRAPHS IN THE HUMANITIES AND SOCIAL SCIENCES

2016-17 OA MONOGRAPH SCALABILITY SURVEY OF COLLECTIONS UNITS AT ACADEMIC LIBRARIES IN THE U.S.

- 103 valid responses
- 1 authoritative response per library
- 37 states and D.C.

1. We want to support models that seem sustainable and economical. OA initiatives that appear to perpetuate the status quo publishing model on the backs of libraries is not one we are likely to support.

2. “We're not going to support models that seem sustainable and economical. OA initiatives that appear to perpetuate the status quo publishing model on the backs of libraries is not one we are likely to support.”

3. “You don't have time to worry about another institution who 'can’t afford it'” (besides, ‘it’s not our job to ‘fund libraries’ right?). It’s our job to enable the rest of the world – individuals as well as institutions in the U.S. and globally that ‘don’t have many resources - it’s all good!’

4. “We’re not going to support models that seem sustainable and economical. OA initiatives that appear to perpetuate the status quo publishing model on the backs of libraries is not one we are likely to support.”

5. “We’re not going to support models that seem sustainable and economical. OA initiatives that appear to perpetuate the status quo publishing model on the backs of libraries is not one we are likely to support.”

6. “Freeriders are institutions who don’t contribute to OA initiatives, for whatever reason (budgetary, philosophical, etc.). I’m not sure that I’m not worried about that, but I can’t control their actions, I can only control my own. It doesn’t make sense to me to use lack of support by others as a factor as to whether or not I contribute.”

7. “Freeriders are institutions who don’t contribute to OA initiatives, for whatever reason (budgetary, philosophical, etc.). We would reject a business model on the backs of libraries is not one we are likely to support. "We want to support models that seem sustainable and economical. OA initiatives that appear to perpetuate the status quo publishing model on the backs of libraries is not one we are likely to support.”

8. “Freeriders are institutions who don’t contribute to OA initiatives, for whatever reason (budgetary, philosophical, etc.). ‘Metrics’ - and I’d hate to see OA initiatives collapse (with institutions not being able to continue support) because they missed that metrics train.”

9. “Notifications to us from the OA initiative about the availability of MARC records is ideal (don’t make us chase after the records, or have to enter reminders to check for records into our calendars, please). the earlier the better, esp for front list titles, to avoid ordering duplicates.”

10. “We're needing to support more and more of our collection budget expenditures with ‘metrics’ - and I'd hate to see OA initiatives collapse (with institutions not being able to continue support) because they missed that metrics train.”

11. “Freeriders are institutions who don’t contribute to OA initiatives, for whatever reason (budgetary, philosophical, etc.). ‘Metrics’ - and I’d hate to see OA initiatives collapse (with institutions not being able to continue support) because they missed that metrics train.”
