**Sources for Election Information**

Data Literacy and Voting Webinar
Presented by Martha Stuit
4T Virtual Conference on Data Literacy
July 15, 2016

**Selected Sources for Election Information, Statistics, and Visualizations:**
Check out these sources for good examples and methodology to examine with students.

- FiveThirtyEight (Nate Silver): [https://fivethirtyeight.com/](https://fivethirtyeight.com/)
  - In-depth analysis of polls, statistics, and visualizations
  - Compelling visualizations
  - Local election information
  - Highlights methodology
  - Includes methodology

**Selected Aggregators of Polls:**
Use these to check out recent polls, trends in poll results, and accuracy of polls over time.

  - Gives polls a grade
  - Aggregates results of polls in visualizations
  - Lists recent polls by date

**Transparency and Disclosure Organizations:**
Use these to see if a particular pollster discloses information to one of these transparency agencies.

- Roper Center: [http://ropercenter.cornell.edu/polls/](http://ropercenter.cornell.edu/polls/)
