The original version of this article unfortunately contained some mistakes. The corrections are shown below.

In Table 1, the prevalence of LQTS was inadvertently entered as: 2,500 and it should read 1/2,500.

In Table 3, there are three columns labeled as EDS. The first EDS column should be labeled “EDS Vascular”, and the third EDS column should be labeled “EDS Hypermobility”. The second column labeled EDS is correctly labeled “EDS Classic.”
