

Turning Your Educational Work Into Scholarship

Abstract: This educational download will help readers turn their work into scholarship with 5 straight forward tips. When doing educational work-ask questions. Be sure to have a strong educational foundation for teaching, assessment, and evaluation. Work in teams. Use colleagues to help promote educational work. And finally, manage the work flow to ensure completion.

Education research and scholarship are essential for promotion of faculty as well as dissemination of new educational practices. Educational faculty frequently spend the majority of their time on administrative and educational commitments and, as a result, educators often fall behind on scholarship and research. This educational download focuses on five tips to increase and improve your scholarship.¹⁻³
