

The article “Vascularized tissue-engineered chambers promote survival and function of transplanted islets and improve glycemic control” by K. R. Knight, Y. Uda, M. W. Findlay, D. L. Brown, K. J. Cronin, E. Jamieson, T. Tai, E. Keramidaris, A. J. Penington, J. Rophael, L. C. Harrison, and W. A. Morrison (*FASEB J.* 2006 20: 565-567; doi: 10.1096/fj.05-4879fje) has been retracted by the authors because the data were found to be inaccurate and invalidate the findings of the article. All versions of this article have been removed from the journal’s Web site.
