Youth Experiences and Future Needs in Learning and Working During COVID-19

SEPTEMBER 2020 | POLL QUESTIONS

1. How has your school/work changed because of the pandemic?
2. If you've had to make changes, what HAS NOT gone well with learning/working?
3. What HAS gone well with learning/working?
4. If stay-at-home orders were to continue or expand, what would you need to learn/work better?

Data Source and Methods

Responses were collected using the MyVoice study, a national longitudinal text-message survey of youth. Participants were recruited via social media to participate in weekly open-ended surveys. Questions were iteratively developed by a research team including survey experts, mixed-methods experts, and youth. A total of 936 youth responded to the survey and responses were qualitatively assessed and categorized by two independent investigators to reach consensus. More information about the MyVoice study methodology is available at researchprotocols.org/2017/12/e247.
