Milan District Library
September 17, 2020

1

Presentation Overview

- Introduction
- Key Digital Library Services
- Why flickr?
- Three Key Things – Organize, Describe, Organize
- Your Images – Your Rights
- Additional resources

Building a Digital Image Collection - Seeman - Milan District Library Sept. 2020

2

Presentation Overview

- This program will introduce you to photo sharing services that are available from companies such as Google, Apple, facebook and flickr (among others) and how to organize them for easy retrieval. We will look at ways organize, backup and share pictures with friends and family. We will also explore how images are found by others (using tags or searchterms), if you want to share more broadly. This could be the perfect session if you want to do something with all those pictures on your phone or clogging up your SD card!
- Key Takeaways
 - Share my photography philosophy
 - Understanding where to store photos on the cloud
 - Best practices to make photos easy to find
 - Best way to manage them for the long haul
 - Better appreciation for squirrels!

Building a Digital Image Collection - Seeman - Milan District Library Sept. 2020

3

Introduction

- About Corey
- Librarian at the University of Michigan (since 2005)
- Formerly, an archivist at three institutions (including the National Baseball Hall of Fame & Chicago Historical Society).

Building a Digital Image Collection - Seeman - Milan District Library Sept. 2020

4

Introduction

- Passionate photographer as a child.
- Done in by the double cost of photography (film and developing).
- Rekindled my passion for photography with my first digital camera back in 2007.

*My older brother
and me, in
Matawan, NJ
(c. 1968)*

Building a Digital Image Collection - Seeman - Milan District Library Sept. 2020

5

Introduction

- Passionate amateur photographer
- All about the squirrels
- Comedy Wildlife Award Highly Commended (2019)
- Washington Post Squirrel Week Contest 2nd place & Detroit News Celebrate Michigan winner

Building a Digital Image Collection - Seeman - Milan District Library Sept. 2020

6

Introduction

- Huge user on flickr
- <https://www.flickr.com/photos/cseeman>
- I have participated in Project365 (one photo every day) since June 12, 2008
- Almost never without a camera!

Building a Digital Image Collection - Seeman - Milan District Library Sept. 2020

7

Key Digital Library Services

- flickr – flickr.com
- SmugMug - Smugmug.com
- Instagram - instagram.com
- Imgur - imgur.com
- Google Photos - photos.google.com/
- facebook – facebook.com
- Apple Photos - www.apple.com/ios/photos/
- Amazon Photos - www.amazon.com/Amazon-Photos
- Shutterfly & Snapfish (and other print/gift focus)
- ***It's a constantly changing environment!***

Building a Digital Image Collection - Seeman - Milan District Library Sept. 2020

8

Key Digital Library Services

Name	Cost (relative)	Benefit / Drawback
flickr	Free account; Pro account (\$49.95/year) gives you more features & more than 1000 pictures.	Great community of photographers. Easy way to share and integrate into social media*
SmugMug	Primarily for professionals. Fee to use service.	Owners of flickr – good if you are interested in photography business.
Instagram	Free account.	Maybe the biggest name in photo sharing. Designed to work with your mobile device.
Imgur	Free basic account.	Can get lost among cat GIFs
Google	Free account, more storage needs costs per month.	Integrates with your Android phone/device; great backup (cloud).

Building a Digital Image Collection - Seeman - Milan District Library Sept. 2020

9

Key Digital Library Services

Name	Cost (relative)	Benefit / Drawback
facebook	Free with account	Good for sharing with your network only.
Apple	iPhone/iPad users get 5GB free storage. Can upgrade from there.	Integrates with your Apple phone/device. Easy to share and edit. Typically great cameras on these devices. Like Google, you can find primarily your pictures. Backup all to the cloud if you can!
Amazon	Free with Prime account or pay per storage needs	Relative new entry among photo sharing.
Shutterfly Snapfish (etc)	Free with account	Easy printing, somewhat odd sharing (but possible)

Building a Digital Image Collection - Seeman - Milan District Library Sept. 2020

10

Why flickr?

- It is a community of photographers.
- It is about as much your photos as it is for ones that are shared by others.
- You can find a group (or groups) that is interested in just about anything.
- Excellent sharing and findability.
- Easy way to create albums and use tags to find pictures.

Building a Digital Image Collection - Seeman - Milan District Library Sept. 2020

11

Why flickr?

- You can share any image on the site.
- Pictures I have taken

Building a Digital Image Collection - Seeman - Milan District Library Sept. 2020

12

Why flickr?

- You can share any image on the site.
- Pictures I have taken

Building a Digital Image Collection - Seeman - Milan District Library Sept. 2020

13

Why flickr?

- Pictures & Documents I have scanned

Building a Digital Image Collection - Seeman - Milan District Library Sept. 2020

14

Why flickr?

Corey's philosophy of photography

- Take 50 more pictures than you think you need. Or more! #LaVitaDigital
- Capture the beauty of everyday life.
- Make things easy to find.
- Only share good capture (especially when people are talking).
- Share joy with others.
- Every pictures tells a story and captures a moment in time.

Building a Digital Image Collection - Seeman - Milan District Library Sept. 2020

15

Why flickr?

Corey's philosophy of photography

- See what other people are doing - continually seek out ways to improve.
- Always carry your camera - you never know what you will see!
- Take the same picture at different times - seasons, light, opportunity
- **A great photo is a match of three things: Opportunity, Artistry, and Equipment**
- Shoot Cannon DSLRs (6D Mark II, 80D, 70D, T3)

March 18th, 2008

<https://flic.kr/p/4zbYa3>

Building a Digital Image Collection - Seeman - Milan District Library Sept. 2020

16

Three Key Things

- Organize (as you take them)
 - Describe (to make them findable)
 - Organize (so you may save them)
- *NOTE: I will be showing this with flickr and Google Photos. Apple Photos are nearly identical to Google.*

Building a Digital Image Collection - Seeman - Milan District Library Sept. 2020

17

Organize (Three Key Things)

- The key to finding anything is to keep it organized!

Building a Digital Image Collection - Seeman - Milan District Library Sept. 2020

18

Organize (Three Key Things)

- Natural way photographs are organized is by date taken.
- Use folders and sub-folders to fine tune where pictures go.
- In flickr, you can order your upload so the picture you want will show first.
- Time spent here will make it easier to find items later.

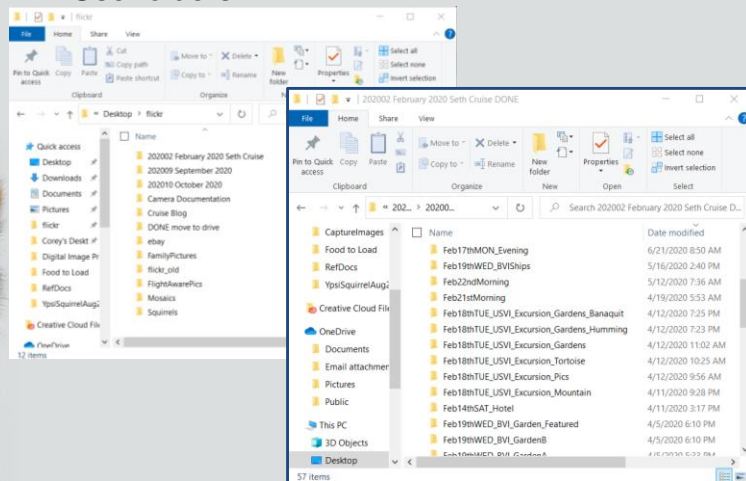

Building a Digital Image Collection - Seeman - Milan District Library Sept. 2020

19

Organize (Three Key Things)

- Use folders!

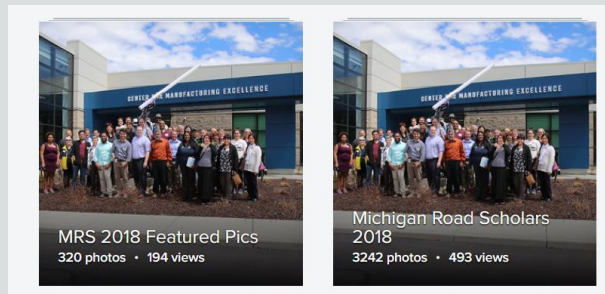

Building a Digital Image Collection - Seeman - Milan District Library Sept. 2020

20

Organize (Three Key Things)

- Use Albums – very common means of bringing similar items together.
- Great for sharing and organizing.
- Corey's Albums on flickr - <https://www.flickr.com/photos/cseeman/albums>

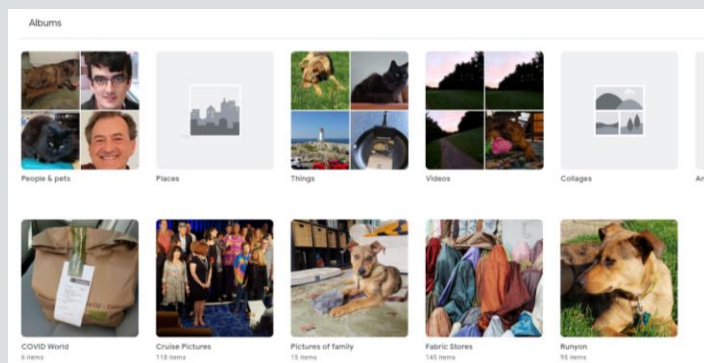

Building a Digital Image Collection - Seeman - Milan District Library Sept. 2020

21

Organize (Three Key Things)

- Google Photos enable albums – easy way to find items.

Building a Digital Image Collection - Seeman - Milan District Library Sept. 2020

22

Describe (Three Key Things)

- Words, Words, Words

(Hamlet Act 2, Scene 2)

Building a Digital Image Collection - Seeman - Milan District Library Sept. 2020

23

Describe (Three Key Things)

- With flickr, you have a title, description and tags. Relatively few limits.
- With Instagram, it is essentially all about the tags.
- With Google (and Apple), you can add info (description), but they seem to be more based on AI to find items.

Building a Digital Image Collection - Seeman - Milan District Library Sept. 2020

24

Describe (Three Key Things)

- Tags are the best ways to have people find your images.
- Create all sorts of tags to direct people to the items.
- You can add tags after the fact.
- You can also apply the same description to multiple items.
- These become the search-terms in both flickr and search engines.

Building a Digital Image Collection - Seeman - Milan District Library Sept. 2020

25

Describe (Three Key Things)

- Your tags can have meaning only to you.
- “Security by Obscurity” approach.
- **equinoxfeb152**
020tortola
- Sometimes you need to reindex.

<https://flic.kr/p/2iyBvW3>

Building a Digital Image Collection - Seeman - Milan District Library Sept. 2020

26

Describe (Three Key Things)

- Tags can have external or internal meanings (they all live together).
- Sometimes, the tags will not retrieve the image (HINT – you can make the image PRIVATE and then PUBLIC again to re-index – it takes 24 hours).
- Images with no tags or only internal use tags will be virtually hidden.

Building a Digital Image Collection - Seeman - Milan District Library Sept. 2020

27

Describe (Three Key Things)

Title: Self-Unloader Lee A. Tregurtha Heading Downbound on the St. Clair River at Port Huron, Michigan and Sarnia, Ontario - September 1st, 2018

29

Describe (Three Key Things)

- Groups (in flickr) are ways to share pictures on a topic with other users.
- Michigan Libraries - <https://www.flickr.com/groups/michiganlibraries/>
- Groups on nearly any topic...
- Anyone can create a group!

Building a Digital Image Collection - Seeman - Milan District Library Sept. 2020

30

Organize Pt 2 (Three Key Things)

- Just because they are online – you need a fallback position....

Building a Digital Image Collection - Seeman - Milan District Library Sept. 2020

31

Organize Pt 2 (Three Key Things)

- We cannot fully rely on any commercial service to be continually useful or practical for our purposes.
- They might also go away or drop the service. Or institute a cap on the number of pictures you can have.
- You need a backup system. Keep it organized.

Building a Digital Image Collection - Seeman - Milan District Library Sept. 2020

32

Organize Pt 2 (Three Key Things)

- External hard drives are a good investment.

Building a Digital Image Collection - Seeman - Milan District Library Sept. 2020

33

Your Images – Your Rights

- You can limit who sees the pictures.
- flickr has both public and private pictures.
- This could be important for privacy or other reasons.
- However, once they get out, it is hard to get them back in...

Your Images – Your Rights

- <https://petapixel.com/2020/03/23/the-shoebox-negatives/>
- <https://shoeboxnegs.com/>
- “In the late 1930s my father was just out of high school and an avid amateur photographer. Decades after he died at age 43 my mother handed me a shoebox stuffed with his film negatives, shot mostly in and around Chicago's Near West Side, and then developed in a makeshift darkroom.
- I never had the chance to ask my dad about the people or situations captured in his photos. But this is the next best thing.”
- *Joan Tortorici Ruppert is a television writer, producer, and director. Professional site - <https://jtrp.net/>*
- Everyone might have a treasure like this!
