Hispanofilipino Literature Exhibit

Charlotte Fater

Mentors: Fe Susan Go, Marlon Sales, and Barbara Alvarez
Project Overview

- Design an exhibit as part of the program *Sites of Translation in the Multilingual Midwest*
- Research the history of the Philippines and its literature
- Identify additional materials for use in exhibit
- Create wall panels and a layout for the display of physical materials
Exhibit Objectives and Personal Goals

- Educate visitors on history, literature, and translation in the Philippines
- Showcase the U-M library collections
- Expand my knowledge about the history and literature of the Philippines
- Learn practical skills related to exhibit design
Challenges and Solutions
#1

**CHALLENGE**
- Lack of access to the physical materials

**SOLUTION**
- Digital scans, cardboard boxes, and index cards
CHALLENGE

- Design accessibility and relative size

SOLUTION

- A contrast check and a reality check
Evolution of a Wall Panel

First Encounters

The first Spanish expedition reached the archipelago in 1521, but it was not until 1542 that the name Philippines (or Filipinas in its archaic Castilian spelling) was coined in honor of Philip II of Spain. It would take another two decades for Spain to establish its first settlements on the islands in 1565 upon the arrival of Miguel López de Legazpi.

Although an economically profitless venture for the Spanish Crown, the Philippines remained a colony of Spain because it was regarded as a springboard for the Christianization of continental East Asia, particularly China.

- Working from home - too few coworkers and too many distractions

**SOLUTION**
- Roommates and picnic tables
The Final Product(s)
Many books and manuscripts produced during the early days of Spanish rule reflected this missionary role. One of the first two books ever printed in the Philippines in 1593 was the *Doctrina christiana*, a book of Catholic prayers in Spanish with an accompanying Tagalog translation written in both the Latin alphabet and the pre-Hispanic Filipino alphabet called baybayin.

Also worth mentioning is the *Boxer Codex*, a manuscript produced in the capital city of Manila around 1590. In addition to very vivid narrative descriptions of Asian cultures, it also contains a series of drawings depicting the peoples of the Philippines and its neighboring countries.
The two foundational novels of the Filipino nation were written originally in Spanish by the most illustrious of the ilustrados. They were the *Noli me tángere* (or *Noli*) and *El filibusterismo* (or *Fili*) of the intellectual and martyr José Rizal. The *Noli* was first printed in Berlin, Germany in 1887, while the *Fili*, its sequel, came out in Ghent, Belgium in 1891.

Since Spanish authorities banned the novels in the Philippines, the first Philippine edition got published only in 1899, a year after the fall of the Spanish Empire. It was around this time when the first translations of the novels were made. In addition to translation into various Philippine languages, a number of English-language translations of Rizal’s novels have been produced over the years.

*An Eagle Flight*, an anonymous translation into English based loosely on the plot of the *Noli*, was published in New York in 1900. *The Social Cancer* and *The Reign of Greed*, Charles Dersbyshire’s influential English-language translations, were printed in 1912.
The Filipino newspaper *El Renacimiento* published its most famous editorial entitled “Aves de rapiña,” or Birds of Prey, in criticism of Worcester’s dubious fact-finding mission. It was Worcester who brought back to Michigan his collection of papers, photographs and other effects on the Philippines, which are now curated as the Worcester Philippine History Collection.

It is worth noting that the University of Michigan played a pivotal role in the American imperialist project in the Philippines. One of Michigan’s alumni, Dean C. Worcester, became the US Secretary of Interior of the Philippine Islands. He also acted as the consultant of the University of Michigan Mission, whose objective was to gather archaeological and anthropological data on the Philippines. Worcester’s controversial research methods, which involved incursions into ancestral lands in search of precious metals, earned the ire of Filipino nationalists.
The fall of the Spanish Empire set the stage for the US to claim the Philippines as its colony. Amidst the many changes in society resulting from this imperial power, Philippine culture in Spanish evolved into a colonial response to American colonial rule, often challenging its previous through the incorporation of elements from the local culture into the colonial system. The concept of a "peripheral" nation has persisted to this day, with the continued influence of the Filipino culture in Philippine society.

This exhibit, organized by the Department of Comparative Literature in cooperation with the University Library as part of the Series Series entitled "Rise of Translation in the Multilingual World," tells the story of the Spanish Philippines through its literature and translations. The story of the Spaniards and their impact on the Philippines is not without significance, as the shift in colonial power has had a profound effect on the country's development. The changes brought about by this shift have shaped the nation's identity and continue to influence its present-day culture.
Translation, Memory, and the Archive: The Literary Worlds of the Spanish Philippines

From the late sixteenth to the early eighteenth centuries, the Spanish colonists in the Philippines created a complex literary and cultural environment that reflected their religious, political, and economic interests. This period was marked by a rapid expansion of the Spanish empire in the Pacific, which included the establishment of colonies in the Philippines.

The role of the Philippines in the history of the Spanish empire was significant. It served as a center for the exchange of goods and ideas between the East and the West. The Philippines played a crucial role in the trans-Pacific trade, which was crucial for the growth of the Spanish empire.

By the end of the eighteenth century, the Spanish presence in the Philippines had declined due to various factors, including the rise of other colonial powers and internal conflicts. However, the cultural legacy of the Spanish period in the Philippines continues to shape the national identity of the Philippines today.
Lessons Learned

- The history of the Philippines
- Perfectionism: a double-edged sword
- What is history, who writes it, and why that matters
The Future of the Project

Hopefully, it will be possible to safely visit the exhibit in its final form in the Clark Library on the second floor of Hatcher Graduate starting in January, 2021.
