

Primary care

Alternate referral pathway to primary care:
Annual wellness screen or AUD screen at time of annual influenza vaccination

Electronic health record: automated calculation of FIB-4
Concern for AUD: Administer AUDIT-C

Risk stratification

Fib-4 ≥ 1.3
AUDIT-C ≥ 3
for women and ≥ 4 for men

Fib-4 < 1.3
AUDIT-C < 3
for women and < 4 for men

Specialty Care

Linkage to mental health
Community Resources
AUD treatment professional referral

Based on resources:
Hepatology referral
Co-manage with specialty
Telehealth
Outreach clinic referral

Hepatology referral
-Imaging based non invasive liver disease assessment versus biopsy for secondary confirmation of advanced fibrosis if needed.

Primary care management
-AUD counseling
