Feedback on Virtual Platform:

- Thank you for making this program virtual. I would have been unable to attend usually as I work in an off campus clinic.
- I appreciated the ability to have audience participation. Hopefully w/more time people will engage!
- appreciate that these are done virtually as historically I've never been able to get to hosp. I actually like seeing who else is in on the webinar/connect that way, and from this format you can't do that.
- I really appreciate the polls
- I am usually in clinic on Monday and unable to attend these Rounds in person. The virtual platform allows me to listen.

Feedback on Speakers:

- I appreciated the discussion and resources shared.
- wonderful job and great suggestions and supports shared
- All speakers provided valuable insight, thank you!

General Feedback

- Great topic and very timely.
- It just makes me miss my family more today
- The topic was timely and the suggestions were helpful for ways that I can create some meaning with upended holiday traditions.
