

#1: Exploring Interests as M1s

Created slide-set to be presented during the first-year curriculum explaining available Endocrine Branch Electives

Restructuring the Adult Endocrine Branch Elective

Capstone for Impact: Katherine Wolf

#3: Organizing M3/M4 Elective

Created CANVAS page, developed "Welcome Packet," formalized inpatient/outpatient structure, outlined 5-minute chalk-talks

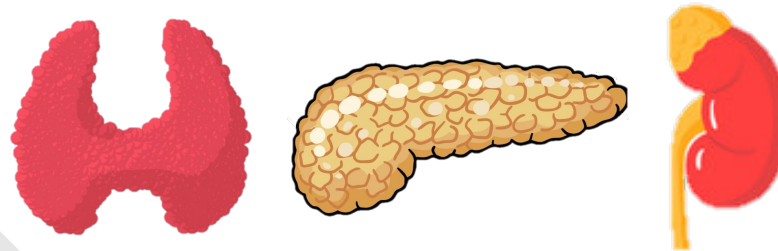

GOAL(s): Increase student interest and exposure to the field of endocrinology throughout their time at Michigan Medicine. Standardize the grading procedures for rotating medical students. Ensure adequate teaching, evaluation, and feedback opportunities for Endocrine Fellows

#2: Showcasing Mentors

Created a database of pediatric & adult endocrinologists, their research interests, and clinical availability

#4: Fellows as Teachers

Created slide-set of grading procedures, developed 2-year rotating curriculum (feedback, formative evaluations, CV development)

University of Michigan Medical School
