Hi Ayana,

Thank you for the update and for submitting your capstone on canvas. Deb Levine, your PoE advisor, will review and approve your capstone but it sounds great.

Congrats on all your hard work!

Best,  
Emma

Hi Emma,

Thanks for the reminder. I have attached a final poster presentation that I gave on 4/22/2019 at SNMA's Annual Medical Education Conference in Philadelphia. I also submitted it to the Capstone assignment on Canvas. This is the most recent publication linked to my Policy Capstone, which I worked on during my PoE month with Dr. Levine.

Title: Factors Associated with Racial and Ethnic Diversity Among U.S. Emergency Medicine Residency Programs  
Status: Completed

Thanks for your help with these details. Please let me know if there is anything else I need to do to be on track to finish the Path? (if it helps, I matriculated with Class 2015, joined the Path in 2016)

Thanks!  
Ayana

**Subject:** Health Policy PoE Capstone STATUS due 6/1/19

Hello,

You are receiving this email because according to my records, you are on track to graduate from medical school in May 2020. If you are not expecting to graduate in 2020, please let me know so I can update your expected graduation year and make sure I'm sending you the right emails.

**If you would like your Health Policy PoE capstone title included in your dean's letter for residency, please send me a working title and status update by 6/1/19.** Your final capstone project isn't due until graduation, but an in-progress capstone can still be included in your dean's letter as "on track to complete" with a working title. If you have already completed your capstone, you can submit it via the Health Policy [canvas page](#) under the *Assignments* tab for approval by your PoE advisor.

Guidelines for capstones are attached to this email and live on the [2016 Cohort canvas page](#). Please let me know if you have any questions.

Thank you,  
Emma
