## **Development of ASRAP Questionnaire**

## Linguistic evaluation of provisional ASRAP items

This document outlines a formal assessment of the preliminary ASRAP questionnaire prior to formal cognitive de-briefing. When developing the instrument, each item was worded to minimize ambiguity, cognitive difficulty and to ensure each item meets accepted criteria for optimal translatability into non-English languages (e.g. avoidance of culturally-based idioms such as "feeling blue" or "sleeping soundly" that may not make sense in other languages and require adjustment to achieve cultural and linguistic equivalence.

This document outlines formal linguistic testing of each item to ensure they are concise, simply worded to avoid exceeding expected eighth grade (age of 14 years or less) reading level.

Each item has been assessed using the validated "simple measure of gobbledygook" SMOG calculator aiming for a SMOG index of <14.0 for each item. Any items scoring higher than 14 have been highlighted in bold, re-worded at the bottom of the table to improve readability and the SMOG index re-calculated to ensure readability has improved to within target range. In all cases, the revised wording of the item has been adopted for the provisional ASRAP questionnaire that shall be proceed to cognitive de-briefing within the target patient population.

Item #	SMOG analysis
Raynaud's symptoms have caused pain in	The SMOG index: 8.1
my fingers	Total words: 8
	Total number of polysyllabic words: 0
	Total number of sentences: 1
2. Raynaud's symptoms have caused	The SMOG index: 8.1
numbness in my fingers	Total words: 8
	Total number of polysyllabic words: 0
	Total number of sentences: 1
3. Raynaud's symptoms has caused tingling in	The SMOG index: 8.1
my fingers	Total words: 8
	Total number of polysyllabic words: 0
	Total number of sentences: 1
4. Raynaud's symptoms have made my fingers	The SMOG index: 13.8
tender / hypersensitive to touch	Total words: 11
	Total number of polysyllabic words: 1
	Total number of sentences: 1
5. Raynaud's symptoms have caused a	The SMOG index: 13.8
burning sensation in my fingers	Total words: 10
	Total number of polysyllabic words: 1
	Total number of sentences: 1
6. Raynaud's symptoms have made my fingers	The SMOG index: 8.1
feel cold	Total words: 8
	Total number of polysyllabic words: 0
	Total number of sentences: 1
7. Raynaud's symptoms have made my fingers	The SMOG index: 8.1
change one or more colours (white/blue/	Total words: 19
red/purple etc.)	Total number of polysyllabic words: 0
	Total number of sentences: 1
8. Raynaud's symptoms have interfered	The SMOG index: 16.2
with my ability to use my fingers	Total words: 11

	Total number of polysyllabic words: 2
	Total number of sentences: 1
9. How frequently have you been	The SMOG index: 16.2
experiencing attacks of Raynaud's	Total words: 10
symptoms?	Total number of polysyllabic words: 2
	Total number of sentences: 1
10. On average, how much total time have you spent each day experiencing attacks of Raynaud's symptoms	The SMOG index: 13.8
	Total words: 16
	Total number of polysyllabic words: 1
	Total number of sentences: 1
11. On average, how long has a typical attack	The SMOG index: 13.8
of Raynaud's lasted.	Total words: 11
	Total number of polysyllabic words: 1
	Total number of sentences: 1
12. Raynaud's symptoms have made me	The SMOG index: 8.1
upset/tearful	Total words: 8
	Total number of polysyllabic words: 0
	Total number of sentences: 1
13. Raynaud's symptoms have made me	The SMOG index: 13.8
worry about my ability to do things	Total words: 12
	Total number of polysyllabic words: 1
44 Daysayda ayyadaya bayayada ya	Total number of sentences: 1
14. Raynaud's symptoms have made me	The SMOG index: 13.8
annoyed/frustrated	Total words: 8
	Total number of polysyllabic words: 1 Total number of sentences: 1
15. Raynaud's symptoms have made me	The SMOG index: 13.8
irritable	Total words: 6
	Total words: 6  Total number of polysyllabic words: 1
	Total number of sentences: 1
16. Raynaud's symptoms have caused	The SMOG index: 8.1
feelings of despair / loss of hope	Total words: 11
and the second s	Total number of polysyllabic words: 0
	Total number of sentences: 1
17. Raynaud's symptoms have made me	The SMOG index: 13.8
embarrassed	Total words: 6
	Total number of polysyllabic words: 1
	Total number of sentences: 1
18. Raynaud's symptoms have caused low	The SMOG index: 8.1
mood/made me depressed	Total words: 8
	Total number of polysyllabic words: 0
	Total number of sentences: 1
19. Raynaud's symptoms have bothered	The SMOG index: 16.2
me due to inability to do my usual things	Total words: 13
	Total number of polysyllabic words: 2
00 D	Total number of sentences: 1
20. Raynaud's symptoms have beaten me/got the better of me	The SMOG index: 8.1
	Total words: 9
	Total number of polysyllabic words: 0
24 Pounoudio oumptomo have interfered	Total number of sentences: 1
21. Raynaud's symptoms have interfered	The SMOG index: 16.2 Total words: 10
with my ability to go shopping	Total words: 10  Total number of polysyllabic words: 2
	Total number of sentences: 1

22. Raynaud's symptoms have interfered	The SMOG index: 19.6
with my ability to do housework/ gardening	Total words: 11
man my ability to do nodoonone gardoning	Total number of polysyllabic words: 4
	Total number of sentences: 1
23. Raynaud's symptoms have interfered	The SMOG index: 18
with my ability to socialise	Total words: 9
	Total number of polysyllabic words: 3
	Total number of sentences: 1

outside / doing things I enjoy) to avoid making	Total words: 21
my Raynaud's symptoms worse	Total number of polysyllabic words: 1
-	Total number of sentences: 3

## **Summary**

In total, subtle changes were made to 11 items to improve comprehensibility and readability. This was felt to improve readability without affecting the concept being questioned. For all changed items, the repeat SMOG assessment resulted in a SMOG index of <14.0.
