## EVENT ABSTRACT

February 2023

Lydia X. Z. Brown's work focuses on unearthing, examining, and challenging the intersectional harms of algorithmic technologies on disabled people living at the margins of the margins. From algorithmic worker management, credit

7

4:00pm - 5:30pm EST

surveillance apparatuses, algorithmic and automated technologies increasingly have an outsized impact on disabled people, particularly disabled people from multiply-marginalized communities. Lydia's work calls attention to the particular ways in which algorithmic technologies serve to exclude disabled people from public participation and social integration, exacerbate existing hyper-surveillance of and attendant harms to disabled people, and manufacture new means of regulating disabled people's lives.
