Hello everyone! We hope that you have a restful Winter break and are ready to start the Spring semester off strong. We sure are! We are hitting the ground running with expanded lab hours and three events on February 1st. We are also looking to expand our BCaT team by hiring two undergraduates interested in learning how to do digital research. Feel free to drop by during open hours or during our Wednesday sessions.

Announcements
Updated Lab Hours

We have expanded our open lab hours so that anyone can stop by even when we are not hosting a session or event. Use the lab as a quiet space to work, relax, collaborate, or get help on projects.

Application for Undergraduate Collaboration

The Black Communication and Technology Lab (BCaT) is looking for two undergraduate students to join our spring collaborative project. This would be a great opportunity for undergraduate students who are thinking about graduate school, or who desire to develop their research skills.

Info and Application

Upcoming Events

BCaT Writes

BCaT Writes are weekly writing sessions where undergraduate students, graduate students, and faculty at UMD gather to write their own projects. You can join us at Skinner 3115 or on Zoom. Our first session is on February 1st from 1 to 3 pm.
Collaboration Info Session

BCaT Lab facilitates a new collaborative project led by a member of the research team. This term’s collaboration begins in Spring semester 2023 and is led by Rianna Walcott.

BCaT Eats

Our first BCaT Eats to kick off the semester. We will host a viewing and dinner party for affiliates of the lab. That’s it, we watch TV and eat together because our health and our joy are important. Come join us at Skinner 3115 on February 1st at 5pm.

Future Events
Douglas Day

Each year, we celebrate the chosen birthday of Frederick Douglass on February 14. Here are the events we will be hosting at the Lab:

- BCaT Event and Lunch from 10am to 1pm
- Bake-off and tour of the David C. Driskell Center from 1pm to 4pm
