Mr. Donald F. Lach
5750 S. Kenwood Avenue
Chicago, Illinois 60637

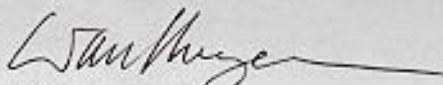

Dear Mr. Lach:

I'm enclosing, for your records, a copy of the preliminary inventory to the twenty-seven cartons of papers transferred from your office to Special Collections at the beginning of the month. This set of papers includes extensive groups of research materials and manuscripts of *Asia in the Making of Europe*, teaching materials, reprints of your work, and exchanges of correspondence with colleagues and students from the late 1940s to the mid 1980s. We've integrated into this group of papers the two additional boxes of material you located in your office and the small group of reprints that you dropped off this week.

It's a pleasure to be able to add these papers to the University of Chicago Archives. Since I understand that this may be the first of two installments, I look forward to further word from you about the files you've kept at home. Your suggestion of a visit is one Alice and I will be glad to accept, so please let us know what suits you.

Thank you again for your interest in the Archives and the documentary record of historical scholarship at the University.

Sincerely,

Daniel Meyer
Associate Curator
Special Collections

enc.
