SI 640 - Digital Libraries and Archives, Winter 2009

Conway, Paul

<http://hdl.handle.net/2027.42/64936>
http://hdl.handle.net/2027.42/64936
Themes for this week

1. Introductions
2. What is a digital library?
3. Course requirements
4. Archive and library?

“The term ‘digital library’ is relatively new.”

What are digital libraries?

1 Themes

...organizations that provide the resources...collections that are readily and economically available...” Don Waters (1998)

2 Definition

“...a collaborator within the academy, yet retains its distinct identity” Wendy Lougee (2002)

3 History

“...the term ‘digital library’ may even be an oxymoron.”

Douglas Greenberg (1998)

4 International

“...a ‘tenth library” for the University of California”

“...provides a community of users with coherent access to a large, organized repository...”

Cliff Lynch (1995)

“...digitized and organized collection, ‘full-form online material,” link to audience...”

Michael Lesk (1997)
What are digital libraries?

1 Themes
2 Definition
3 History
4 International

“...services, architecture, enabling technologies, users and content”
Christine Borgman (1992)

“...an environment to bring together collections, services, and people in support of the full life cycle of creation, dissemination, use, and preservation of data, information and knowledge”
Paul Duguid (1997)

“...the web is not a library.”
Jose-Marie Griffiths (1998)

“a national digital library” Library of Congress
DLF Definition

Digitally libraries are organizations that provide the resources, including the specialized staff, to select, structure, offer intellectual access to, interpret, distribute, preserve the integrity of, and ensure the persistence over time of collections of digital works so that they are readily and economically available for use by a defined community or set of communities.

Borgman on digital libraries

1 Themes
2 Definition
3 History
4 International

Research and practice: different worlds

- “Digital libraries are a set of electronic resources and associated technical capabilities…
  - Focuses on the technical system
- “Digital libraries are constructed by and for a community of users…”
  - Focuses on process and service

Borgman, 2000, p. 42.
Pre-history

1 Themes
2 Definition
3 History
4 International

- Networks and mainframes
- Moore’s law
- Collaborative work: Doug Engelbart
- Business-government-academic

SI's own history as an educational program is tied up in the evolution of the pre-history of digital libraries.
Building on existing infrastructures, the search for new markets for emerging technologies focused on digital content in “business practices.”

- Xerox PARC 1978 – first scanner
- IBM – storage and workflow
- BellCore – image and text
History – govt./business early adoption

1 Themes
2 Definition
3 History
4 International

- Business efficiency – paperless office
- Govt. effectiveness – paperless govt.
- National Archives and Library of Congress – early experimenters
  - ODISS
  - Federal guidelines
  - American Memory pilot
History – university library experiments

1 Themes
2 Definition
3 History
4 International

- Michigan and Cornell, 1989
- LaGuardia Eight
- Digital Library Federation
- National leadership; little funding

Research libraries have a long and distinguished history of technology experimentation and adoption.

History – university research efforts

1 Themes
2 Definition
3 History
4 International

- Fox and computer scientists
- NSF DLI1
- NSF DLI2
- Patents and trademarks as an issue

DLI1: http://www.dli2.nsf.gov/dlione/
DLI2: http://www.dli2.nsf.gov/
Back to Borgman

1 Themes
2 Definition
3 History
4 International

Separate worlds, separate agendas

- Research vs. practice
- Databases vs. services
- Revolutionary vs. evolutionary
- Distributed vs. institutional

Borgman, p. 48. “Digital libraries are an extension, enhancement, and integration of” … systems and institutions.
Lorcan Dempsey on a decade

1 Themes
2 Definition
3 History
4 International

- Discovery to delivery
- Create to curate
- Connect, advise, collaborate
- Hybrid library [from publishing, learning and teaching, access to resources TO integration and preservation of...]
- ..resources: legacy, transition, new, future

European efforts and beyond

1 Themes
2 Definition
3 History
4 International

- Metadata modeling for the pooling of resources

TEL: http://www.theeuropeanlibrary.org/portal/index.html
Resources for Further Study

- **Journals**
  - See list in CTools

- **Organizations**
  - JISC [http://www.jisc.ac.uk/](http://www.jisc.ac.uk/)
  - DELOS [http://www.delos.info/](http://www.delos.info/)

- **Portals**

- **Conferences**
Thank you!
