Make Your Own Assessment

{ Content Open.Michigan believes can be used, shared, and adapted because it is ineligible for copyright. }

- [PD-INEL] Public Domain – Ineligible: Works that are ineligible for copyright protection in the U.S. (USC 17 § 102(b)) *laws in your jurisdiction may differ

{ Content Open.Michigan has used under a Fair Use determination. }

- [FAIR USE] Fair Use: Use of works that is determined to be Fair consistent with the U.S. Copyright Act. (USC 17 § 107) *laws in your jurisdiction may differ

Our determination DOES NOT mean that all uses of this 3rd-party content are Fair Uses and we DO NOT guarantee that your use of the content is Fair.

To use this content you should do your own independent analysis to determine whether or not your use will be Fair.
Social Demands &
Incentives for Accountability

March 16, 2009
- US National Archives and Records Administration

- US National Association of State Chief Information Officers
  - http://www.nascio.org/publications/

- AIIM White Papers / Case Studies (registration required)

- Health Affairs (March/April 2009 - Vol 28, No 2) (via UM library subscription)
  - http://content.healthaffairs.org/current.shtml
OUTLINE

• Social Demand / Incentives
  - Factors
  - Accountability
  - Transparency
  - Panopticism
  - Issues
  - Conventional / New Approaches
  - Multi-sectoral Networks
  - Global Reporting Initiative
Factors

• Re-establishing legitimacy of institutions following series of scandals and malfeasance

• Globalization and the ineffectiveness of national sovereignty mechanisms

• Pressure from consumers and some investors for socially responsible policies and practices
Accountability 1...

• **Definition:** the *ability to hold others to account* for their actions

• **Mechanisms:**
  - Markets
  - Elections
  - Reputation
  - Oversight
  - Sanctions
  - Boycotts
  - Force

• **Limitations:**
  - Scope of influence
  - Access to accountability mechanisms
  - Power imbalance
  - Non-enforcement
Accountability 2...

• Dynamic & contested
• Changes over time
• Sensitive to contexts
  – Historical
  – Social
  – Cultural
  – Political

(Zadek 2005; Fung, Graham & Weil 2007)
Transparency: Social Demands / Incentives

• Visible
• Frank
• Candid
• Open
• Observable

“complete and balanced disclosure of information on the issues and indicators required by stakeholders to make decisions, and on the processes, procedures, and assumptions used in preparing those disclosures” (Global Reporting Initiative)
Targeted Transparency

- Mandated public disclosure
- By corporations or other private or public organizations
- Of standardized, comparable, and disaggregated information
- Regarding specific products of practices
- To further a defined public purpose

(Fung, Graham, Weil, 2007)
The Panopticon
Accountability through transparency?

Jeremy Bentham (Wikimedia Commons)
Transparency / Accountability

Issues

• Who is held accountable? For what?
• How are they held accountable?
• How do we create / enforce effective mechanisms for accountability?
• What are the limits on transparency?
Conventional Approaches

**Top Down**

- International Organizations, Laws, Treaties, etc.
- Nations, Member States, Signatories, etc.
- Private Sector
  - Civil Society

**Pressures**
New Approaches: Multi-Sectoral Networks

• Interdependence
  – no one entity can address the problem; diffusion of power; pluralistic & collective accountability mechanisms

• Flexibility
  – evolve practice as issue evolves (plusses and minuses of legal & non-legal approaches)

• Complementarity
  – diversity of constituencies / voices not cooption; negotiation; sharing of knowledge; mediation
Accountability in Multi-Sectoral Networks 1...

• How do you know that the organic eggs you buy are organic?

• How do you know that your Michigan Archives sweatshirt was not produced with child labor?

• How do you know that a factory in Midland is not releasing dioxin into the water supply?

• How do you know that your insurance company (which is owned by a Dutch bank) will cover its liabilities?

• How do you know whether the government of Haiti was legitimately elected?
Accountability in Multi-Sectoral Networks 2...

- Governments + International Organizations + Civil Society + Businesses

- Address issues that no sector can manage alone:
  - Corruption
  - Climate change
  - Environmental protection
  - Health & Disease
  - Sustainable Development
  - Human Rights
  - Labor Rights
  - Internet Governance
Emerging Accountability Mechanisms in Multi-Sectoral Networks

- **Market-oriented**
  - Contract and purchasing requirements
  - Labeling and certification
  - Boycotts

- **Regulatory & Legal**
  - Standards and Protocols (Koyoto Protocol)
  - Inspections and Treaties (IAEA)

- **Voluntary**
  - Open reporting movement
  - Self regulation / persuasion
  - Codes of conduct / certification / peer accountability
  - Reputational orientation (brand)
Global Reporting Initiative

• Beyond Financial Reporting
• Impacts: Community to Global
• Impacts: Immediate to very long-term
• Issues?
• What role do electronic records play in this initiative?
