© PD-INEL Public Domain – Ineligible: Works that are ineligible for copyright protection in the U.S. (USC 17 § 102(b)) *laws in your jurisdiction may differ

{ Content Open.Michigan has used under a Fair Use determination. }

© FAIR USE Fair Use: Use of works that is determined to be Fair consistent with the U.S. Copyright Act. (USC 17 § 107) *laws in your jurisdiction may differ

Our determination DOES NOT mean that all uses of this 3rd-party content are Fair Uses and we DO NOT guarantee that your use of the content is Fair.

To use this content you should do your own independent analysis to determine whether or not your use will be Fair.
Studies of People & Their Needs: A (Very) Brief Introduction to Information Behavior Research; Brief Intro to Civic Engagement

645

Sept 28, 2009
Information Behavior In Communities Is Understudied. A 645 Focus

Librarians lack an understanding of how people need, seek, use information in communities. This course focuses on reducing this problem.

Understanding Barriers Is One Key to Increasing Access to Info And Its Use

• Today: Brief intro to info behavior theory
• Today: Barriers associated with a sensitive individual problem—spouse abuse
• Today: Examination of Barriers associated with Digital Divide Issues
Harris & Dewdney’s Premises:

• Premise: LIS, even in 90s, System Centered
• Premise: even researchers prone to look at wrong variables (demographics, occupation, etc) and use the wrong methods
• Premise: every day life problems/situations & “ordinary people” understudied
• Work of theorists such as Dervin essential to learning to anticipate community info needs
H&D’s Six Principles of Information-Seeking
Distilled from Then Recent Research

1. Information needs arise from help-seeker’s situation.

2. The decision to seek help or not to seek help is affected by many factors.

3. People tend to seek information that is most accessible.
H&D’s Six Principles (Con’t)

4. People tend first to seek help or information from interpersonal sources, especially from people like themselves.

5. Information-seekers expect emotional support.

6. People follow habitual patterns in seeking information.
Brenda Dervin’ Sense-Making Metaphor
1970s-present
Chun Wei Choo’s Map Of Information Need And Use Studies (2006)

Civic Engagement & 645

• Active civic engagement is the commitment to participate and contribute to the improvement of one’s community, neighborhood and nation. PACE

• At the community level: a variety of activities initiated by individuals, groups, or agencies

• Civic engagement fostered by groups one focus of this class (postpone Durrance 1984 & 2006 Durrance civic engagement studies)

• Governmental organizations are seeking to “reinvent” their approaches to engagement
Case Studies: Toward Model Development

• There are indicators that institutions are moving away from system-centeredness
• How do can/do/should community institutions engage with their communities?
• What are the components and best practices that foster civic engagement?
• Throughout this term we will seek to identify and bring together model components
• Analyzing the case studies should contribute to the model
Resources

- IMLS National Medal Awards for engagement
- LJ “library of the year” article (most recent 2009)
- Urban Libraries Council reports aimed at providing models of engagement for libraries (examples of activities, etc.). See the Ctools Bib/Resource folder for three ULC studies: Engaged Library; Welcome Stranger; Making Cities Stronger.
Selection of Case Studies
Order of Discussion of Readings

• Information Behavior:
  – Harris & Dewdney ch 4-5
  – Harris & Dewdney ch 6-7

• Digital divide: Robinson et al

• Civic engagement: PACE
