CODEBOOK WITH MARGINALS

WASHTENAW COUNTY GENERAL PUBLIC
1971 SURVEY ON DRINKING AND DRIVING

Arthur C. Wolfe
Marion M. Chapman

UM-HSRI-AL-72-1

January 1972

CODEBOOK OF THE 1971 WASHTENAW GENERAL PUBLIC SURVEY
ON HIGHWAY SAFETY

The following codebook shows the results obtained from household interviews with 606 residents of Washtenaw County aged 16 and older during the period February 13 to July 25 of 1971. The 606 interviews represent a response rate of 76.2% from among the 795 eligible respondents in the representative sample. Seventy-six percent of these interviews were obtained on the first or second call by the interviewer, while the remaining 24% required three or more calls. In addition to the Form A interviews a four-page mail-back questionnaire was left with the respondents, or the interviewer waited while the respondent filled it out. Form B was returned by 516 or 85% of the interviewed respondents, and in addition Form B was filled out by 11 persons who refused to have the Form A personal interview.

For most of the Form A variables from V18-V158 and V219-V247 five sets of percentage distributions are provided in the left margin of the codebook. The first set under the heading "TI" contains the percentages for the 606 total interviews. The second column under the heading "NL" (never licensed) contains the percentages for the 41 respondents who have never had a driver's license. The third column under the heading "ND" (non-drinking drivers) contains percentages for the 263 present or former drivers who say they never drink before driving. The fourth column under the heading "MD" (moderate drinking drivers) contains the percentages for the 168 present or former drivers who say they do drink before driving but that they have not driven. in the previous year after drinking more than they should have. Finally, the fifth column under the heading "XD" (excessive drinking drivers) contains the percentages for the 133 former or present drivers who admit to having driven after drinking more than they should have at least once in the previous year. It is of course this last group (22% of the sample) which is of greatest concern

to the Washtenaw County Alcohol Safety Action Program. If a number in one of these columns is preceded by an "*" this means that it is an actual frequency rather than a percent.

For a few general sampling variables percentages and/or frequencies are given only for the total sample ("TS") and for total interviews ("TI"). Also response rate ("RR") is given for Variables 5 and 6, and for the Form B Variables 159-218 percentages are given for the total Form B respondents ("TB") and for the respondents in the four subcategories who answered Form B (32,219,143,122 respondents respectively). For nine numeric variables percentage distributions are inappropriate (e.g., V29 Washtenaw Fatalities), so the tenth, thirtieth, fiftieth, seventieth, and ninetieth percentiles are shown for these variables. In most cases percentages will add to one hundred in each column, but for the multiple response variables (e.g., V81 What DAD Messages) the percentages are based on dividing the number of mentions of a category by the number of respondents and will usually add to more than one hundred.

Appended to the end of the codebook are pages containing the actual content of the "other" responses which did not fit into the regular code categories on certain questions.

TABLE OF CONTENTS FOR CODEBOOK

SUMMARY OF HEADINGS

A. Sampling, Interviewing, and Coding Information

B. Accident Causation and the Role of Alcohol

C. Accident Knowledge and Precautionary Behavior

D. Attitudes Toward General Highway Safety Countermeasures

E. Safe/Legal Amounts of Alcohol and Accident Risk

F. Knowledge of Importance of Factors Affecting Alcohol Influence

G. Knowledge of Sobering Up Methods

H. Implied Consent and Use of Breath Tests

I. Attitudes Toward Punishment/Deterrence Drunk Driving Countermeasures

J. Attitudes Toward and Awareness of Educational Drunk Driving Countermeasures

K. Attitudes Toward Alcohol Help Drunk Driving Countermeasures

L. Local Extent of and Help for Alcohol Problems

M. Support for and Awareness of Alcohol Safety Programs

N. Own Drinking Behavior and Attitudes

O. Perceived Importance of Various Reasons People Drink

P. Responsibilities of Servers of Alcohol and Own Behavior

Q. Own Driving Experience and Record

R. Own Behavior in Regard to Drinking and Driving

S. Personal Background of Respondent

T. Own Local Media Use

I. ATTITUDES TOWARD PUNISHMENT/DETERRENCE DRUNK DRIVING COUNTERMEASURES

J. ATTITUDES TOWARD & AWARENESS OF EDUCATIONAL DRUNK DRIVING COUNTERMEASURES

V18-V27   IMPORTANCE OF VARIOUS ACCIDENT CAUSES

Q.1. First I have a question about the important causes of traffic accidents. I will name some causes of accidents and ask you to tell me how important you think each is, using the numbers on this card.
How important do you think poor road design or maintenance is in causing traffic accidents?

21	27	17	24	26
3	7	3	3	2
*13	*1	*6	*1	*5

Support for Never Drinking Before Driving
1. Any drinking before driving is dangerous; difficult (or impossible) to establish any safe limits for a driver
2. Education won't work; - people won't or can't stop at safe limit
3. Drinking is immoral; people should never drink
4. Other never drink before driving response

Support for Education to Safe Limits
5. Not realistic to try to stop all drinking before driving; can't be enforced; drinking is a strong social custom that can't be stopped
6. Not appropriate (not legal) to try to stop all drinking before driving; moderate drinking is safe (at least for some)
7. People can be educated to limit their drinking before driving
8. Other education to safe limits response
9. NA
0. Inap., no interview; no second response

V77 R77 Help Walking Drunks (Q.23. Many of the
pedestrians who get involved in traffic accidents
are drunk at the time. Do you think there should
be any special efforts to help drunk pedestrians
avoid getting hit, such as warning signs or extra
lighting near bars, or special patrols to assist
drunk pedestrians; or don't you think such special
efforts should be made? Q.23a. How much special
effort do you think is desirable; a lot, some, or
only a little?)   TL=116   MD=0,9

V55   R55 Refusal Penalty

0589	Automatically booked for drunk driving
0195	Considered guilty
0113	Driver is automatically "gotten" for drunk driving. "He can't refuse-they'll shove it in his mouth or something"
0108	He gets written up, taken away, and forced to (take it) later. It just looks good that they ask-you really have to take it anyway
0138	Assumed drunk
0110	I would assume that policeman would think he had something to hide and possibly was under the influence
0094	Conviction for drunk driving
0507	Must appear in court
0671	Guilty of driving

V55 (cont'd)

```
0550   Incriminates self
0426   Go to court
0845   I think he has to go with police downtown or something.
       If don't take test think can talk to city hall or some-
       thing.
0440   Convicted of drunk driving
0278   Asked to take blood test
0119   Could be prosecuted for drunk driving-considered a
       drunk driver
0479   Assumed guilty
0384   Considered guilty
0648   Automatically guilty of drunk driving
0609   Automatic conviction of drunk driving
0175   Breath test refused held against person in court
0736   Same as guilty of drunk driving
0184   Forced to take it
0188   Conviction only
?      If they are convicted the consequences will be greater
0498   Automatic admission of guilt
0154   Considered drunk
0583   Police assume he is drunk
0565   Against the law
0571   Automatic conviction
0631   He is considered guilty
```

V58   R58 Best First Penalty

```
0647   Nothing
0829   None
0144   They should take the guy home
```

V76   R76 Why Main Approach
A.   Support for Never Drinking Before Driving

```
0488   Scares R to be around people who are drunk
0289   Personal experience
0434   It's the only answer but can never happen
0106   Better goal
0567   Neither will be effective. If you can propogandize
       enough, people may drink less
0458   People (would) know it is against the law and therefore
       should not drink and drive
0018   It would keep the people who do not drink before
       driving from starting to
0272   Too many accidents now
0341   Such a ruling may restrict them somewhat
0097   Most easily enforced
0114   Safest way for all concerned. Most secure method of
       removing difficulty before (it) happens. Not talking
       about degrees-just removing any form of accident due
       to drinking from the road
0422   I don't think at any time
0220   It should be the law
0028   Because people who already drink will never stop. (In
       response to say "never drink before driving")
0772   More of                      an example
```

V76 (cont'd)

B. Support for education to Safe Limits

0618 Everyone is different
0520 For safety
0154 It depends on how much you can drink
0139 It is very important to find out how much a person can drink and still have control
0266 I think people should learn to know their limitation
0134 When he's drinking he's not going to listen to anybody
0113 I don't feel either will work. I think gadget that won't start if person is drunk is best
0749 That's the way everybody I know lives
0626 People should be aware of what they are doing; the fact that they aren't themselves after drinking (in response to "stick to limits")
0681 Know someone who goes over limit
0270 People have different limits (in response to why "stick to limits")
0216 Should be more aware of what their limits are
0184 Fear is greater motivator than rationality
0181 Anything you drink slows down your reactions
0454 First choice is not rational. Picked second choice
0081 1st-you can't stop people from drinking; 2nd-but bars should set house limit
0549 Prohibition is the only way that will work (although R thought understand and stick to limits a better choice than never drink before)
0445 It's the only answer

0244 Some people can't control their liquor; non-drinking would be better. Answer previous to that was 5) people should understand and stick to limits
0159 I drink occasionally but never do it when I drive
0235 I am a Christian and I feel that it's not good for the body

V78 R78 ASAP Tax Support

0538 Tax on alcohol
0368 Whatever is necessary
0287 What is necessary, if thatgoal is feasible
