

A Case Study:

France

UNITS AS OF JANUARY 1, 1998

- 59 units installed
- 1 unit under construction (implementation order given)
- Units definitively shut down (11 units)

REACTOR TYPE

-  Gas-cooled (GCR)
-  Gas-heavy water
-  Breeder
-  PWR* once-through cooling
-  PWR closed-loop with cooling towers

* Pressurized Water Reactor
