Introduction

The challenge of capturing the rich history of a complex, consequential, and enduring institution such as the University of Michigan is considerable indeed. To be sure, there are numerous scholarly tomes and popular histories of the institution, its leaders, and its programs. Yet the history of the University requires much more. In fact, Michigan’s history, those characteristics evolving over time that have determined its distinctiveness and shaped its impact on society assume the form of a saga requiring many forms of narrative—words, images, music, and even digital simulations!

This web portal leads to many such descriptions of the University of Michigan’s history, compiled in support of several recent publications. It also presents several new ways to understand the nature and impact of the institution, its past,
Videos and Slideshows
This page contains a number of historical motion pictures and slideshows illustrating the Michigan Campus at various times in its history. In addition, a collection of videos, slideshows and virtual reality panoramas are provided to illustrate various elements of the contemporary campus such as the President's House, Ingris House, and several of the newer buildings.
