## Foreword

Dr. Abdel-Massih's preparation of this volume and the accompanying ones, A Course in Spoken Tamazight, A Reference Grammar of Tamazight, and A Course in Moroccan Arabic, was initiated and supported by the University of Michigan Center for Near Eastern and North African Studies as part of its general program of research and training on the languages and cultures of North Africa. A series of studies in anthropology, history, and political science and additional instructional materials on Moroccan Arabic are in preparation.

We are indebted to the Ford Foundation, which is in no way responsible for the specific results, for the grants to the Center that have made this work possible. We are most grateful for the tolerance of the people and government of Morocco in accommodating, and often actively assisting, the work of our faculty and students.

W. D. Schorger  
Director

## Acknowledgments

This study was made possible by the cooperation of a number of individuals. In particular, I would like to thank Mr. Mohammed Guerssel for his conscientious efforts during the work on this lexicon. Mr. Guerssel did an excellent job both as field and research assistant, and without his assistance this study would not have been possible.

Thanks are due as well to Mr. Stanley Mendenhall who as a research assistant was entrusted with the computer work. His dedication to the work and creative suggestions are gratefully acknowledged.

I would also like to thank Mr. Jeffrey Bennett, who undertook the laborious task of proofreading the major part of this study. His comments on some of the cultural categories were of great help.

In addition, I would like to express my thanks to Professor William D. Schorger, who, as Director of the Center for Near Eastern and North African Studies at the University of Michigan, initiated the program of research on North African languages and linguistics. The Center defrayed the costs of informants, research assistants, field trips, typists, tapes and tape recordings, and provided me with the time and opportunity to carry out the field research and the analysis.

My deepest gratitude is to my wife Cecile and my daughters Nagwa, Hala and Mary, whose patience sustained my efforts during the work on this study.

Ann Arbor, Michigan  
June, 1971

E.T.A.

## Introduction

This study grew out of the need for a lexicon of a Middle Atlas Berber dialect incorporating linguistic, lexical, and cultural information. The study is intended to be a tool for the beginning language learner, the linguistic researcher in the field of Berber studies or comparative and historical linguistics, the anthropologist, and other social scientists.

The majority of the data of this study comes from texts recorded in the field from native informants. These texts were edited, verified, and transcribed with the help of a native speaker of Ayt Seghrouchen, Mr. Mohammed Guerssel, who also was the field research assistant at the time these tapes were recorded. Another source of vocabulary items was existing Tamazight word lists, especially my list of Ayt Ayache Tamazight words in Appendix A of Tamazight Verb Structure: A Generative Approach (Indiana University, Bloomington, Indiana, 1971), and the ones in my A Course in Spoken Tamazight and A Reference Grammar of Tamazight, both published by the Center for Near Eastern and North African Studies, The University of Michigan, 1971. Mr. Guerssel helped in finding Ayt Seghrouchen equivalents for these vocabulary items.

I had considered the usefulness of a dictionary classified into functional categories. Not only would such a classification

be of great service to the user but it would vastly facilitate the enlargement of the corpus. All vocabulary items that are members of one and the same category were elicited at one time after the first occurrence of a member of this category; for example, all parts of the human body were elicited after the occurrence of the word "hand" in Tamazight, either on a field tape or in one of the Tamazight vocabulary lists referred to above. I would like to state here that this study does not claim to be a complete inventory of the vocabulary of Ayt Seghrouchen. It is hoped that other students of Berber, native speakers, and researchers will find this lexicon of some use and may use it for additional studies of Ayt Seghrouchen.

The material **compiled** was punched, with adaptations in transcription, on computer cards which were fed into the IBM 360/67 Duplex computer at the University of Michigan. The data were programmed with FORTRAN IV, SNOBOL 4, and ASSEMBLER programming languages, and the resulting lexica were printed by the computer.

The language of this book is Tamazight, a dialect of Berber spoken in the Middle Atlas Mountains of Morocco. Berber is spoken mainly in North African (Libya, Tunisia, Algeria and Morocco) and in Siwa (UAR). It is also spoken by the Tuareg groups in Mauritania and the countries of the Sahara (Mali, Niger and Chad). Berber, a branch of the Afro-Asiatic family of languages is an unwritten language. It is divided into some three hundred or more local dialects. The number of speakers of Berber has been

estimated between 5,000,000<sup>1</sup> and 7,000,000<sup>2</sup>, and as high as 10,000,000<sup>3</sup>. Berber speakers are discontinuously distributed from the Siwa Oasis in Egypt to the Atlantic Ocean and from the Niger River to the Mediterranean Sea. (See the map on p. xi for the general distribution of Berber dialects and the map on p. xii for the distribution of Berber dialects in Morocco.) It is possible to distinguish four basic dialect groups of Berber:

- I. Tamazight, a dialect of the Middle Atlas Mountains in Central Morocco. Among the speakers of Tamazight (which number approximately 2,000,000) are the following groups (tribes, subtribes):

Beni Ouarain, Ait Morghi, Ait Alaham, Ait Youb, Marmoucha, Ait Seghrouchen, Ait Youssi, Beni Mguild, Zaiane, Zemmour, Ait Rbaa, Ait Seri, Beni Mtir, Guerouane, Ait Segougou, Ait Morghad, Ait Ayache, Ait Hadiddou, Ait Izdeg, Ait Sikhmane, Ait Atta.

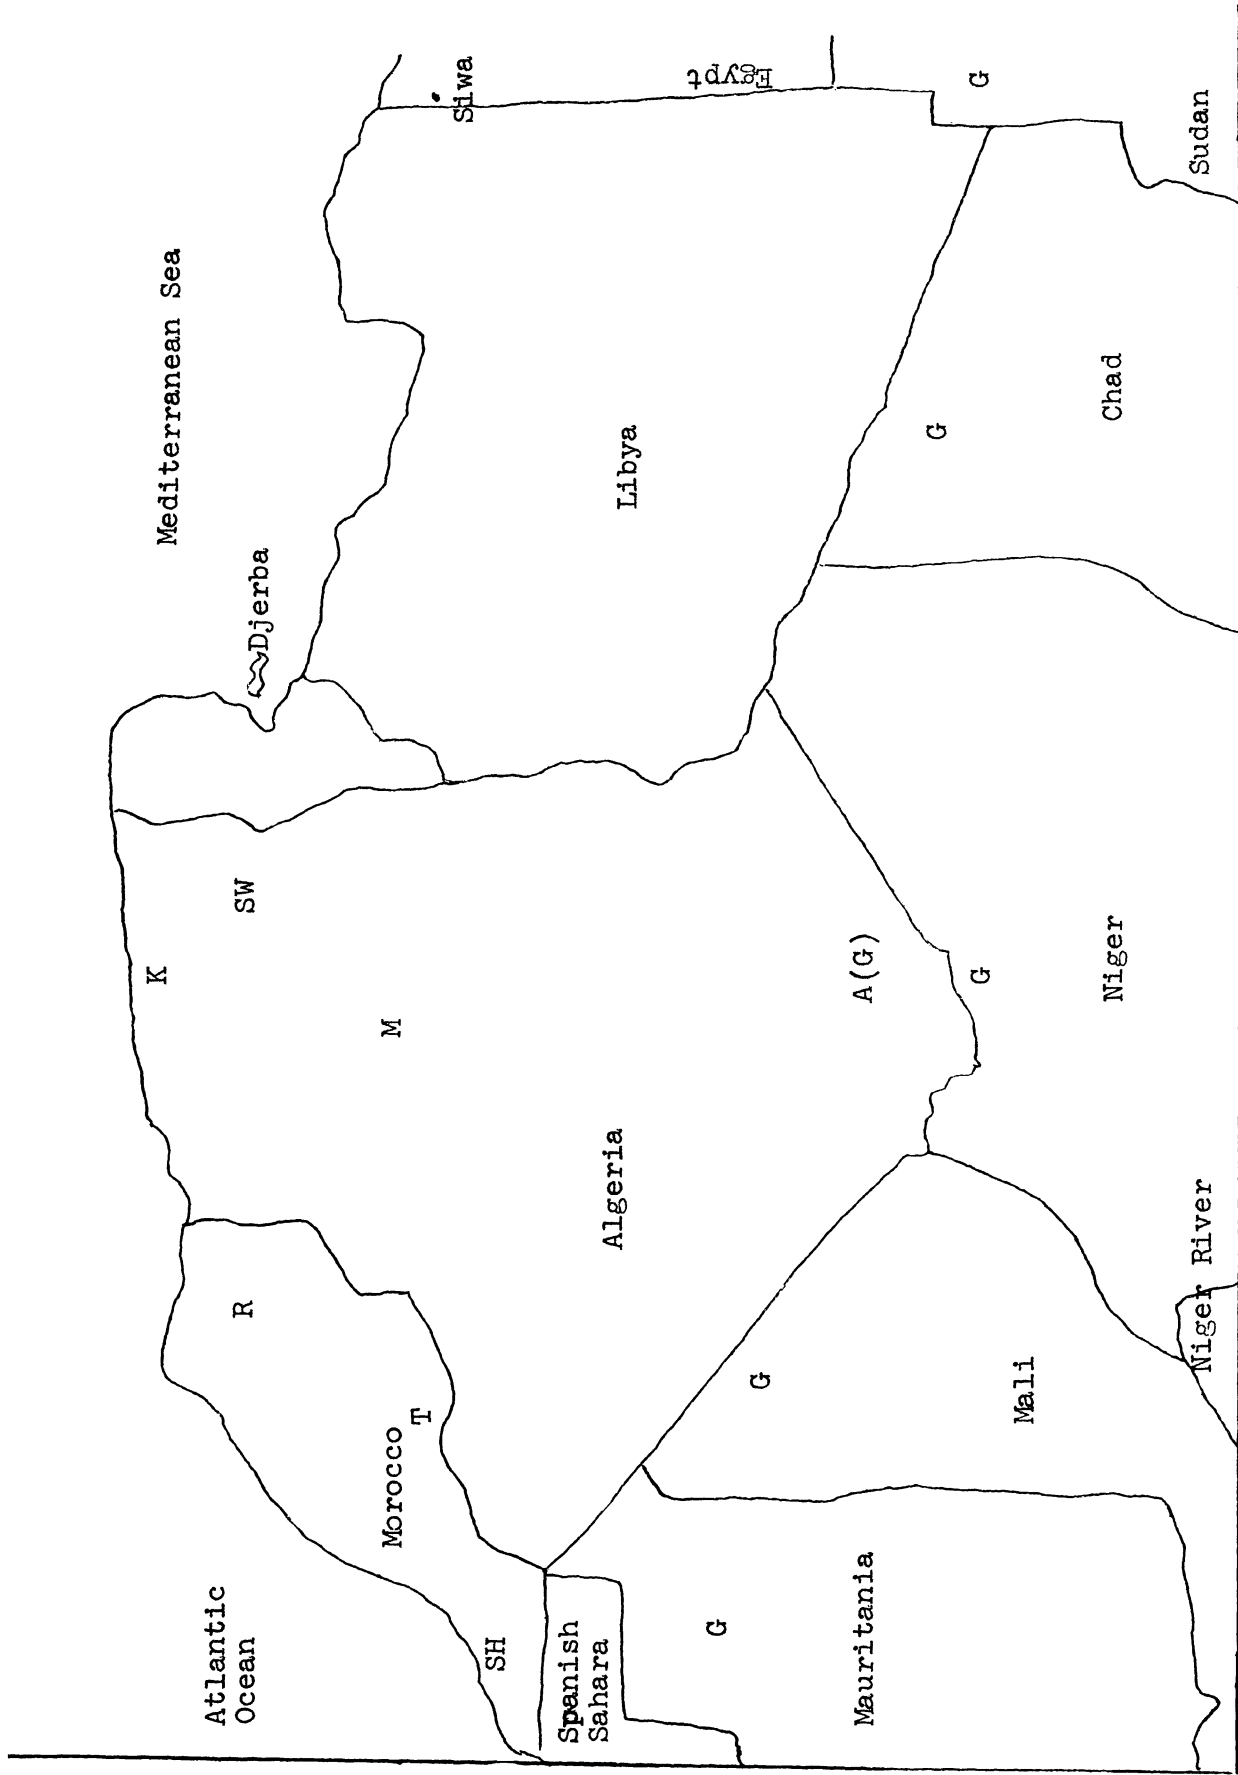

- II. Tashelhit (or Shilha), dialect of the High and Anti-Atlas and the Sous Valley in Southern Morocco. There

Geographic Distribution of the Major Berber Dialects.

- R = Rifian
- T = Tamazight
- SH = Shilha
- K = Kabyle
- SW = Shawia
- M = Mzabidn
- A(G) = Ahaggar (Tourage)
- G = Touareg

Geographic Distribution of Berber Dialects in Morocco

are approximately 2,000,000 speakers of this dialect.

III. Zenatiya, a dialect of about 2,000,000 speakers.

Zenatiya distinguishes the following sub-groupings:

- a) Rifian or Tarifit (spoken by about 0.5 million Rifians in Northern and Northeastern Morocco)
- b) Kabyli (spoken by about 1,300,000 speakers), dialect of the Kabyle tribes in the Kabyle Mountains of Algeria
- c) Zenatiya Mzabian (spoken by about 25,000 speakers in Mzab by the Mzabites of Ghardaia)
- d) Shawia or Tashawit (spoken by about 150,000 speakers in the Aures Mountains of Algeria)

IV. Tamashek, dialect of the Tuareg groups in Mauritania and the open Sahara.

Many speakers of Berber in North Africa are bilingual, with Arabic as their second language. Many of the men speak Berber, Arabic and French, while most of the older women are monolingual.

The main focus of the language of this study is the Tamazight dialect of Ayt Seghrouchen. Ayt Seghrouchen is a larger tribe than Ayt Ayache. It is divided into three major sub-tribes: (1) Ayt Seghrouchen of Sidi Ali, known as Ayt Seghrouchen of Tichikout, (2) Ayt Seghrouchen of Imouzzer and (3) Ayt Seghrouchen of Talesinnt. The borders of the Ayt Seghrouchen of Sidi Ali are the Beni Ouarain to the north, Ayt Youssi to the south, Ayt Seghrouchen of Imouzzer and Beni Mguild to the west

and southwest, and Oulad El-Haj to the east. Ayt Seghrouchen of Imouzzer lies about 30 kilometers south of Fez, surrounded by Ayt Youssi, Beni Mtir, and the town of Sefrou. The limits of Ayt Seghrouchen of Talesinnt are Oulad El-Haj, Ayt Yafelmane, the town of Midelt, and Beni Guil.

The Ayt Seghrouchen live by farming and sheep herding. They live either in tents or in mud-brick houses. The animal breeders live in tents in the mountains during the summer and normally come down to the prairie to search for pasture in the winter. There is pasture land at the foothills in winter and on the top of hills in the summer.

Berber literature is mainly oral. The lack of written documents makes tracing the history of the language somewhat difficult. However, attempts to record the language using various writing systems were made very early. The oldest inscriptions, which come to us from Tunisia and Algeria, are over 2,000 years old. They are written in a consonantal system which resembles that of contemporary Tuareg. The surviving Berber alphabet is that of the Tuareg tribes, known as Tifinagh; it is composed of strokes, arcs, and dots, and combinations of the three. In this system, individual words are not separated; one can write from left to right or from right to left, from top to bottom or from bottom to top. The Tuaregs call the symbols Tafineqq (singular) and Tifinagh (plural). The Tuaregs have no manuscripts, strictly speaking--only short notes on pots, bracelets, shields, etc. The only Berber texts we have are written in Arabic script. These are mainly religious texts used for instruction in Islam.

Following is a simplified table with samples of the Libyan inscriptions and Tuareg (Tifinagh), both ancient and contemporary inscriptions, with the corresponding Arabic script and phonetic equivalents.

Phonetic Equiv.	Libyan	Tuareg (Tifinagh)		Corresponding Arabic Script

## Notes on the Grammar of Tamazight

### I. Phonology

Note: Phonemic symbols are enclosed in slanted lines / /; computer symbols, i.e., the transcription used throughout the lexicon are enclosed in brackets { }. Allophones (conditional variants) are enclosed in square brackets [ ].

Tamazight, Ayt Seghrouchen dialect, has the following consonants and semivowels:

/btd kgq šzž xɣ mnlr hɛh wy/ (See Table 1)  
= {BTD KGQ \$ZJ X8 MNLR HɛH WY} (See Table 2)

and the following vowels:

/i u a/ (See Table 3)  
= {I U A} (See Table 4)

		Bilabial	Labio-Dental	Dental	Alveolar	Alveo-palatal	Palatal	Post palatal	Post Velar	Pharyngeal	Glottal
Stop	vl.			t				k	q		
	vd.	b		d				g

Remarks on the Pronunciation of Tamazight Consonants

1. /š/ = { \$ } is pronounced as English "she", e.g., /ša/ = { \$A } 'some'. /ž/ = { J } is pronounced as in English "measure"; e.g., /žhd/ = { JHD } 'to be strong'. /h/ = { H } is pronounced as in English "he", e.g., /dhn/ = { DHN } 'to rub ointment'. /l/ = { L } is pronounced as in the English word "feel"; Tamazight /l/ = { L } is like the first [l] in English "level" but not the second one, e.g., Tamazight /lalala/ 'no', where all the three l's are pronounced like the first [l] in English "level".
2. /q x ɣ h ʁ / = { Q X 8 H. ε } are all back consonants known as "gutterals".  
/q/ = { Q } is a voiceless back velar stop that is produced by the tongue dorsum (back) forming a stop against the velum. Notice that the place of articulation for Berber /q/ = { Q } is further back than that of English /k/: e.g., /lqdr/ = { LQDR } 'amount'  
/x/ = { X } is a voiceless back velar fricative. To pronounce /x/ = { X } produce English /k/, then move the dorsum (back of the tongue) back and produce a fricative; this produces /x/. This will sound like the "ch" in German doch, lachen and nach; e.g., /xali/ = { XALI } 'my maternal uncle'.  
ɣ / = { 8 } is a voiced back velar fricative. It has the same place and manner of articulation of /x/ = { X } . Try to produce English /g/ then move the dorsum of your tongue

back and produce the fricative /ɣ/ = {8}; e.g., /iɣus/ = {I8US} 'it was burnt'.

/h/ = {H.} is a voiceless pharyngeal fricative. As we know, pharyngeal sounds are produced by a constriction of the root of the tongue against the pharynx. This is not an easy sound for non-natives. It is advisable to practice pronouncing /h/ = {H.} by producing a vigorous constriction of the pharynx slightly below and behind the extreme edge of the velum. This can be achieved by drawing the body of the tongue back toward the posterior wall of the pharynx with considerable force. Try this and it should produce /h/ = {H.}; e.g., /hml/ = {H.ML} 'to flood'.

/ʕ/ = {ε} is a voiced pharyngeal fricative. If you try to pronounce the English vowel "a" as in "father" with your tongue pressed down, you will hear /ʕ/ = {ε}; e.g., /lʕin/ = {LεIN} 'spring (water)'.

3. /r/ = {R} is a flap, i.e., a sound that is produced by the very rapid vibration of the tip of the tongue (apex); e.g., /rʒm/ = {RJM} 'to insult'.

#### Flatness, Labialization and Tenseness

- a) The domain of flatness, i.e., that of emphatic\* consonants (also velarized and pharyngealized are terms

---

\* Emphatic articulation refers to the pressing of the blade of the tongue against the palate in formation of some consonant sounds; the articulation is then velarized rather than dental, or pharyngealized rather than velar.

used in this connection) is the syllable. We call /ṭ ḍ ṣ ẓ ḷ ṛ/ = { T. D. S. Z. L. R. } a primary Tama-zight "emphatic" set, the occurrence of which causes other non-emphatic segments\* to become emphatic. This latter set is here termed the "secondary" emphatic set. Notice that in pronouncing the plain non-emphatic consonant the position of the tip of the tongue is dental for, let us say, /t/ = { T } and the back of the tongue is depressed; whereas in pronouncing its emphatic counterpart /ṭ/ = { T. } the tip of the tongue is touching the alveolar ridge and the back of the tongue is raised up toward the velum. Also, note that in the case of the pronunciation of an emphatic consonant the lip muscles are contracted and the lips are extended ventrally whereas they are relaxed when pronouncing the plain consonants. Compare:

/tizi/ = {TIZI} 'value of a man' and

/ṭizi/ = {T.IZ.I} 'pubic hair'.

- b) Labialization. There are two labialized consonants, /ḳ g̣/ = { K.G. } Labialization is manifested as simultaneous lip rounding when producing either of the above-mentioned consonants. Thus /ḳ/ = {K.} as in

---

\* The term segment refers to a minimal portion of speech consisting of a spoken language item known as a consonant or a vowel.

/amd:ak:l/ = { AMD:AK.:L } 'friend (m)' is pronounced as [K<sup>W</sup>].

- c) A tense\* (fortis) consonant in general is produced with more force than its lax (lenis) counterpart. The intensity and aspiration which are characteristic of the tense consonants give them a syllabic quality (i.e. maximum degree of sonority in the syllable) so that /b:/ = { B: } is heard as [ᵉbb] or [ɪbb]; this is transcribed in most other systems which treat Berber phonology as /ebb/ or /ᵉbb/ or /ᶲebb/. In our system of transcription this will be realized as /b:/ = { B: } and pronounced as [ᵉbb] except when preceded by a vowel.

#### Notes on Vowel Allophones

All vowel allophones (conditioned variants) are predictable according to their environment.

/a/ = { A } is realized as [a] (in English "father") in the environment of flat consonants and as [æ] (English "cat") elsewhere.

---

\* Tense or fortis here refers to a consonant pronounced with stronger articulation and greater tension on the muscles of the articulator and, usually, aspiration. Lax or lenis here refers to a consonant pronounced with lesser muscular tension in the speech organ and weaker, laxer articulation and, usually, no aspiration.

/i/ = { I } is realized as [e] (English "eight") in the environment of flat consonants and as [i] (English "feet") elsewhere.

/u/ = { U } is realized as [o] (roughly English "coat") in the environment of flat consonants and as [u] (English "food") elsewhere.

### Structure of the Syllable

If a consonant is followed by another consonant without an intervening vowel there is a predictable transition. Transition between consonants in this case is heard as vocalic and is represented here by a superscript shwa [ə̯] in phonetic transcription (shwa occurs as the "a" in English "about" or as the "a" in English "sofa"). Thus a word such as /frhx/ = {FRH.X} 'I was happy' is transcribed phonetically as [f<sup>ə̯</sup>rh<sup>ə̯</sup>x]. Shwa [ə̯] is realized as the "a" in English "Rosa's" before front consonants and as [ə] before back consonants. [ə̯] is also voiced in the environment of voiced consonants and voiceless in the environment of voiceless consonants. The [ə̯] can either precede or follow a liquid or a nasal, i.e. /l m n r/ = {L M N R}. If a word has a tense consonant followed by a lax consonant then there is a [ə̯] before and after the tense consonant.

Examples:

/r:/	= {R:}	[ <sup>ə̯</sup> rr]	'to give back'
/s <sup>h</sup> l/	= {\$L}	[s <sup>h</sup> <sup>ə̯</sup> l]	'to spend a day'
/ns/	= {NS}	[ <sup>ə̯</sup> ns] or [n <sup>ə̯</sup> s]	'to spend the night'
/f:r/	= {F:R}	[ <sup>ə̯</sup> ff <sup>ə̯</sup> r]	'to hide'
/fs:r/	= {FS:R}	[f <sup>ə̯</sup> ss <sup>ə̯</sup> r]	'to explain'

## Stress

Word stress in Tamazight is a non-contrastive feature. The occurrence of word stress is predictable: primary stress falls on the last vowel of the word whether it is a full vowel (i, a, u), or a shwa [ə] transitional; e.g., /bdá/ = {BDÁ} 'to begin', /xm:m/ = {XM:M} = [xəmmám] 'to think'.

## Notes on the Verb

In discussing the verb in Tamazight, it is necessary to discuss the following: (A) Stems, (B) Verb Inflectional Affixes, and (C) Ablaut.

(A) Stems: Stems are either basic or derived. A basic verb stem (V) is any simple unaugmented stem from which all derived verb stems are generated. As seen in the Lexicon, some basic verb stems are clearly borrowings from Arabic. However, these stems are now considered part of the Tamazight Verb Lexicon since they conform completely to the derivational, inflectional and ablaut patterns of the native stems. The following were consulted for stems of Arabic origin:

Al Firūzābādī, Majd Al-Dīn. Al Qamūs Al Muḥīt. Vols. I-IV, Cairo, 1938.

Majma' Al-Luġha Al 'Arabiyyah. Al-Mu'jam Alwaṣiṭ. Vol. I, Cairo, 1960; Vol. II, Cairo, 1961.

Mass'ūd, Jubrān. Al Ra'id. Beirut, 1965.

Al-Murṭadā Al-Zubaydī, Muḥammad Ibn Muḥammad. Tāj Al-'Arūs. 10 vols., Cairo, 1888 - 1890.

Wehr, Hans. A Dictionary of Modern Written Arabic, ed. J. Milton Cowan. Ithaca, N.Y., 1966.

Derived verb stems are:

SV	Causative Verb Stem
MV	Reciprocal Verb Stem
MSV	Recipro-Causative Verb Stem
TUV	Passive Verb Stem

In addition there is a Habitual Verb Stem derived from all the above-mentioned stems:

VH	Habitual Verb Stem of	V
SVH	Habitual Verb Stem of	SV
MVH	Habitual Verb Stem of	MV
MSVH	Habitual Verb Stem of	MSV
TUVH	Habitual Verb Stem of	TUV

Theoretically all the above mentioned derivations are possible, but the only derived form which invariably occurs is the VH.

Two additional forms may be derived from the simple verb stem (V) by affixation of the particle of proximity /d:/ and the particle of remoteness /n:/ to verb stems, e.g.

/rah/	= { R.AH. }	'to go'
/rah.d:/	= { R.AH.D: }	'to come'
/rah.n:/	= { R.AH.N: }	'to go there'

(B) Verb Affixes are either prefixes, suffixes or discontinuous morphemes.

Prefixes:

- (1) /s~s:/ = { S~S: } for SV, /m~m:/ = { M~M: } for MV,  
/ms~m:s/ = { MS~M:S } for MSV and /tu/ = { TU } for TUV.
- (2) /ad-/ = { AD- } is prefixed to conjugated verb stems  
(V, SV, MV, MSV, TUV) to derive the future tense.
- (3) /l:a-/ = { L:A- } is prefixed to Habitual Verb Stems  
(VH, SVH, MVH, MSVH, TUVH) to derive the present tense.
- (4) /al-/ = { AL- } is prefixed to Habitual Verb Stems to  
derive the inchoative action (e.g., he started to eat).
- (5) /is-/ = { IS- } is the interrogative particle which is  
prefixed to any conjugated verb stems to form inter-  
rogatives of the "do - be" type.
- (6) /ur-/ = { UR- } , the negative particle, is prefixed to  
conjugated V, SV, MV, MSV, TUV to form past tense  
negative.
- (7) /ul:i-/ = { UL:I- }, the negative particle, is pre-  
fixed to VH, SVH, MVH, MSVH, TUVH to form present  
tense negative.

Suffixes: There are two sets of suffixes in Ayt Segh-  
rouchen Tamazight. Both are Imperative Suffixes. Tables  
5 and 6 show these suffixes in phonemic transcription.

s = singular

m = masculine

d = dual

f = feminine

p = plural

	Suffix
2 sm	None
2 sf	None
2 pm	-m
2 pf	-nt

Table 5  
Second Person  
Imperative Suffixes

	Suffix
1 dm	-ax
1 df	-ntax
1 pm	-max
1 pf	-ntax

Table 6  
First Person  
Imperative Suffixes

Verb Inflectional Affixes: The set of verb inflectional affixes listed below in Table 7 is used in all tenses and moods of the Tamazight verb: past, present, future, affirmative, negative, interrogative and negative interrogative. This set is called -PNG- (Person, Number, Gender). This set of morphemes is not included in the lexicon, as some of them are discontinuous, e.g., 2s (second person singular).

- P N G -	Inflectional Affix
1 s	_____x
2 s	t_____t
3 s m	i_____
3 s f	t_____
1 p	n_____
2 p m	t_____m
2 p f	t_____nt
3 p m	_____n
3 p f	_____nt

Table 7  
Ayt Seghrouchen  
-PNG- Affixes

(C) Ablaut: Ablaut is a vowel gradation or change in internal vowels of a word to indicate distinctions in meaning, such as different tenses in a verb (e.g., English "sing, sang, sung").

Ablaut occurs mainly in the affirmative and/or negative past; the negative-interrogative ablaut is the same as the negative past. For this reason we will refer only to affirmative and negative past and mark them as [ -Negative] and [ +Negative]: e.g., /ls/ = {LS} 'to shear', /i-lsa/ 'he cut', /is-ilsa/ 'did he cut?', /ur-i-lsi/ 'he did not cut', /isur-ilsi/ 'didn't he cut?'. Thus stems are either ablauted or unablauted (i.e., no change in the past).

Ablaut in Ayt Seghrouchen may be summarized as follows:

(Only phonemic transcription is used)

1. Unablauted stems: show no ablaut (either in the affirmative or in the negative) and are represented by the verb stems /<sup>ʔ</sup>um:/ 'to swim' of the structure ||AVC:||\*, /barš/ 'to congratulate' of the structure ||AVCD||, /bd:/ 'to stand up' of the structure ||AB:||, /f:u/ 'to dawn' of the structure ||A:V||, and /bdu/ 'to divide' of the structure ||ABV||. For conjugations see Tables 8-10.

2. Ablauted stems:

(a) OO ablaut occurs with stems which have no ablaut in the affirmative past but have /i/ ablaut in the negative. This is represented by /frh/ 'to be happy', /bry/ 'to grind' of the structure ||ABC||, /qr:r/ 'to decide', /bndq/ 'to bow', /lɔz m/ 'to twist' and /z:ʔ/ 'to dismiss' of the structure ||A(:)B(:)(C)(D)||. For conjugations see Tables 11-13.

(b) IA ablaut for members of the ||ABa##|| structure represented here by /bda/ 'to start'. This group has /i/ ablaut for first and second person singular, and /a/ for the rest of the PNG paradigm. This is the only group which is ablauted in the future. For conjugations see Tables 14-16.

\*

||AVC:|| means the stem consists of three radicals, of which the second is a vowel and the third is a tense consonant.  
||AB|| is a biradical stem whose second radical is tense.  
( ) shows optional occurrence of included element.

- (c) IU ablaut occurs with verbs as /iž/ 'to do', /k:/ 'to pass' /ls/ 'to shear' of the structure ||A(:)||, ||AB|| or ||VB||. /i/ occurs with PNG: 1s, 2s, 2pm,f and 3pm,f. /u/ occurs with -PNG- 3m,f and lp. For conjugations see Tables 17-19.
- (d) AU ablaut refers to change of a to u, e.g., /adf/ 'to enter' or /džal:/ 'to swear' of the structure ||aBC|| or ||(A)BaD||. For conjugations see Tables 20-22.
- (e) AI Ablaut refers to change of a to i for only two verbs, namely /awd/ 'to reach', /awy/ 'to take away'. See conjugations in Tables 23-25.

#### Notes on the Noun

In discussing the noun in Tamazight, it is necessary to discuss the following: (A) Basic and Derived Noun Stems, (B) Noun Affixes, (C) Noun Plurals, and (D) Construct State of the Noun.

#### (A) Basic and Derived Noun Stems

A Basic Noun Stem is one which is not derived from any verb stem. Examples of a Derived Noun Stem are the stems of Nouns of Action (NACT), Agent (NAGT), Instrument (NINST), Place (NLOC), occupation (NOCC), and Related (NREL). This means that the stems of such nouns are derived from verbs that exist in the language and that the different numbers and genders of the nouns are derived by the noun affixes mentioned below. A Basic Noun occurs with the same af-

fixes as a derived noun. In most cases whether the noun is basic or derived, its number and gender are distinguished thus: (a) a plural noun has the suffix /-n/; (b) a singular noun does not have this suffix, but has the prefix /#a-/ whereas the plural has prefix /#i-/; (c) a feminine noun has the prefix and/or the suffix /t-/.

Many basic nouns in Tamazight are borrowed from Arabic. Some of the Arabic loan nouns were borrowed with the Arabic definite article /ʔal-/\* 'the' (→/l-/ in Moroccan Arabic and Tamazight). It loses its syntactic function in Tamazight and becomes an inseparable part of the noun, as the opposition Definite/Indefinite is NOT operable through the article: e.g., Arabic loan basic nouns /lk:as/ 'a glass' or 'the glass', /lbab/ 'a door' or 'the door', /ṣ:alih/\*\* 'a saint' or 'the saint' as well as native basic nouns: /aryaz/ 'a man' or 'the man'.

Another set of basic nouns (also Arabic loans) has undergone accommodation to the native pattern: e.g., Moroccan-Arabic (M.A.) /xb:az/ 'baker' and its plural /xb:aza/ are derived from the M. A. verb /xbz/ 'to bake'; whereas Tamazight has /a-xb:az/ 'baker', /i-xb:az-n/ 'bakers' but not the basic verb stem /xbz/ from which the nouns referred to above are

---

\* /-/ denotes morpheme boundary.

\*\* Rules concerning the assimilation of /l-/ of the Arabic definite article to a following dental operate in Tamazight as well. Also note that the formation of the plurals of such loan nouns in most cases follows the Arabic pattern whether Classical or Colloquial: e.g., /lk:as/ has plural /lk:isan/, /lbab/ has plural /lbiban/ and /ṣ:alih/ has plural /ṣ:alihin/.

derived. In almost all the cases the gender of the loan word is preserved: e.g., Berber /tawriq:t/ 'a piece of paper' (<classical Arabic /waraqat-/ 'a piece of paper' f.s.) has the Berber affix /ta\_\_t/ denoting f.s. noun. In Arabic, as well as Berber, all nouns ending in /-t/ are feminine. Very few Arabic exceptions have been observed: e.g., /ʔalxalifat'/ 'Caliph' is a masculine noun in classical Arabic. This Arabic loan appears in Berber as /lxlift/ 'administrative job' which is, among the very few Berber exceptions, a masculine noun. In Moroccan Arab. /lxlift/ is also masculine.

A third set of basic nouns (i.e., not derived from verb stems) borrows only the singular noun, forming its plurals according to native patterns: e.g., Berber /lʔahd/ 'promise' is borrowed from Arabic. The plural of the Arab noun /ʔalʔahd/ is /ʔalʔuhūd/, whereas the plural of the Berber /lʔahd/ is /itlʔahd/. Here, /lʔahd/ is a basic noun (no Berber verb /ʔahd/ and /itlʔahd/ is derived from the basic noun, by the Berber plural prefix /it-/).

Another set of basic nouns shows borrowing from French (and other Western languages), e.g., Berber /t:rik:u/ 'sweater' /t:umubil/ 'motor-car', from French "le tricot" and "l'automobile" respectively. It is interesting to notice the assimilation of /l-/ to a following dental in these examples.

Definiteness: Definite/Indefinite

The definite article does not exist in Berber. Thus the word /aryaz/ can mean either 'a man' or 'the man'. Nouns bor-

rowed from Arabic appear in Berber with the definite article if they are borrowed with the Arabic definite article /al-/ (which is also /l-/ in Berber). Assimilation rules observed in Arabic for the /-l-/ of the definite article before a dental are also applicable to Arabic loan words in Berber if they are borrowed with the definite article: e.g., /ṣ:alih/ 'saint', /z:bib/ 'raisins', /t:alab/ 'request', /ḍ:ra/ 'corn'. All the above nouns, borrowed with the definite article from Arabic, can be translated as either definite or indefinite in Berber.

(B) Noun Affixes

Masculine Singular Prefixes:

/a-/, /am-/, /an-/, /u-/, /i-/, /l-/, /X:-/, and ∅. Note:

- 1) /u-/ and /i-/ are not common prefixes for m.s. nouns.
- 2) /l-/ occurs mainly in Arabic borrowings.
- 3) /X:-/ refers to a tense segment that results from assimilation of /l-/(referred to above) to a following dental, e.g., /z:bib/ 'raisins'
- 4) ∅ means no affix, e.g.,

ɣanim	'reed'	ɖaɖ	'finger'
fus	'hand'	fud	'knee'

Masculine Plural Affixes:

/i\_\_n/, /im\_\_n/, /in\_\_n/, /i\_\_tn/, and /i\_\_/.

Note: /i-/ is prefixed to nouns that are referred to as "Broken Plurals" as opposed to /i\_\_n/ that is affixed to nouns referred to as "Sound Plurals."

Feminine Singular Affixes:

/t(a)\_\_\_t(:)/, /ti\_\_\_(t)/, /tin\_\_\_(t), /tu\_\_\_(t)/,  
/m\_\_\_t/, /l\_\_\_t/, and /X:\_\_\_t/. Note:

- 1) /l\_\_\_t/ occurs in Arabic loans.
- 2) /X:\_\_\_/ of the affix /X:\_\_\_t/ represents /l-/ assimilated to a following dental.

Feminine Plural Affixes

/ti(m)\_\_\_in/, ti(n)\_\_\_in/, /ti\_\_\_/, tu\_\_\_n/, and  
/ta\_\_\_in/. Note:

- 1) /ti\_\_\_/ derives a "Broken" feminine plural noun whereas /ti\_\_\_n/ derives a "Sound" feminine plural noun.
- 2) /ta\_\_\_in/ is a rare feminine plural affix.

(C) Plural Nouns

Plural Nouns, besides being masculine or feminine, are divided into

- (a) External Plurals or Sound Plurals
- (b) Internal or Broken Plurals
- (c) Mixed Plurals

External Plurals (or Sound Plurals)

m.s.: /#a\_\_\_#/ → m.p.: /#i\_\_\_n#/

f.s.: { /#ta\_\_\_#/ } → f.p.: /#ti\_\_\_n#/; e.g.,  
      /##ta\_\_\_t(:)##/ }

<u>Singular</u>	<u>Plural</u>	
axd:am	ixd:amn	'laborer' (m)
taxd:amt	tixd:amin	'laborer' (f)

Internal (or Broken) Plurals

- a) Change of /#a-/ of the singular to /#i-/ in plural
- b) No suffix /-n#/
- c) Internal (medial and/or final) change

Examples:

aq:m	iq:ma	'mouth' (m)
asrdun	isrdan	'mule' (m)
tamd:ak:ult	timd:uk:al	'friend' (f)

Mixed Plurals (Internal Plurals with External Suffixes)

e.g.,

alɣm	ilɣman	'camel' (m)
taxdult	tixdlin	'loaf of bread' (f)

Miscellaneous Plurals, Collective Nouns, Nouns of Unity, Diminutive and Augmentative:

- (1) Plurals with /it/ (m) and /suyt/ (f)

lfqih (ms)	itlfqih (mp)	learned person
ʕt:i (fs)	suytʕt:i (fp)	my paternal aunt

- (2) Plurals of different roots

<u>Singular</u>	<u>Plural</u>	
arba	lwašun	boy
tarbat:	tišir:atin	girl
tamt:ut:	tiʕy:alin	woman

tažmart	tiyal:in	mare
tixsi	ul:i	sheep
tit:	al:n	eye

(3) Collective Nouns

(a) Singular Collective Nouns

udi	butter
uz:al	iron
az:ar	hair
imndi	grain
d:ra	corn
aʔrum	bread
aʔi	milk
tadunt	shortening, cooking fat
taduft	wool
tisnt	salt
tuza	grass
iʔd	ashes

(b) Plural Collective Nouns

aman	water
idam:n	blood
iflus	money
mid:n	people
irdn	wheat
tarwa	offspring, children
tʔrad	salary
imas:n	plough

timzin	barley
timšrad	scissors
imryan	sauce
ifsan	seeds

(4) Noun of Unity

The noun of unity is formed from a collective noun by adding /t\_\_\_\_t/.

/bsl/	onions	talbšlt	an onion
/l:imun/	oranges	talimunt	an orange
/lxux/	peaches	talxuxt	a peach
/xiz:u/	carrots	taxiz:ut:	a carrot

Other nouns of unity are achieved by the use of /ahbub/ 'grain', e.g.,

ahbub nr:uz	a grain of rice
ahbub nd:ra	a kernel of corn
ahbub w:adil	a grape

(5) Diminutives (see p. 322)

Certain masculine nouns give a diminutive noun by prefixation of /#t-/ and suffixation of /-t:#/ (or /-t#/).

fus	tfust	small hand
dar	d:art:	small foot
arbalu	tarbalut:	small spring
ažrtil	tažrtilt	small mat

(6) Augmentatives (see p. 323)

Certain feminine nouns give augmentatives by a process that is the reverse of diminutive formation mentioned above.

txant	axam	big tent
tašt:abt	ašt:ab	big room
tmart	mar	big beard
tabhirt	abhir	big garden

(D) Construct State of the Noun

A noun in the Construct State (C.S.) changes its shape, e.g., aryaz → uryaz ('man'). Changes may be summed up thus:

Masculine Nouns

a- → -u- or -wi-, or -wa-

i- → -i- or -y- or -yi-

Feminine Nouns

ta- → -t-

ti- → -t-

The noun is in the Construct State if:

- (1) The noun (N<sub>2</sub>) is in genitive construct, i.e.,

N<sub>1</sub> of N<sub>2</sub>.

tad:art uryaz 'the house of the man' (aryaz 'man')

- (2) The noun is the subject of a verb and it follows the verb

if:γ umaziγ 'the Berber went out' (amaziγ 'Berber')

- (3) The noun follows a numeral

idž w:as: 'one day' (as: 'day')

- (4) The noun follows a preposition

i uryaz 'to the man' (aryaz 'man')

- (5) The noun follows the conjunction /d/ 'and' (N<sub>1</sub> and N<sub>2</sub>)

lqhwa dwat:ay 'coffee and tea' (at:ay 'tea')

Notes on the Numerical System

(A) Cardinal Numerals

Only numerals "ONE" and "TWO" are Berber; the rest of the numerals are Arabic.

idž (m), išt (f)	one
snat (m and f)	two
tlata	three
st:a	six
hdaš:	eleven
tlatin	thirty
alf	1,000
my:a utlata wxmsin	153

Notice that

(1) Numeral ONE is the only form that shows gender.

(2) Numeral 1 (+ gender) + Noun (s.)

Numeral 2-10 (invariable) + Noun (p.)

Numeral 11-∞ (invariable) + Noun (s.)

(B) Ordinal Numerals

/wis:-/ is prefixed to cardinal numerals to form the ordinal numeral (m)

/tis:-/ for (f)

wis:tlata third (m)

tis:tlata third (f)

Notes on the Pronominal Systems (Only phonemic symbols are used)

Ayt Seghrouchen has the following pronominal sets:

(A) Independent Personal Pronouns

ntš ~ ntšint	I	ntšni	we (m)
šk: ~ šk:int	you (ms)	ntšninti	we (f)
šm: ~ šm:int	you (fs)	šn:i	you (mp)
nt:a ~ nt:an	he	šn:inti	you (fp)
nt:at	she	nitni	they (m)
		nitnti	they (f)

(B)(1) Independent Possessive Pronouns (where object possessed is masculine singular or plural)

winw	mine	win:x	ours
win:š	yours (mp)	win:un	yours (mp)
win:m	yours (fs)	win:šnt	yours (fp)
win:s	his/hers	win:sn	theirs (m)
		win:snt	theirs (f)

(2) Independent Possessive Pronouns (where object possessed is feminine singular or plural)

tinw	mine	tin:x	ours
tin:š	yours (ms)	tin:un	yours (mp)
tin:m	yours (fs)	tin:šnt	yours (fp)
tin:s	his/her	tin:sn	theirs (m)
		tin:snt	theirs (f)

(C) Possessive Pronominal Suffixes

-(i)nw	my	-n:x	our
-n:s	your (ms)	-n:un	your (m)
-n:m	your (fs)	-n:šnt	your (f)
-n:s	his/her	-n:sn	their (m)
		-n:snt	their (f)

(D) Pronominal Affixes for Verbs and Prepositions

(1) with Intransitive Verbs (Indirect Objects, here shown  
with verb /s:iwl/ 'to speak')

is:iwl	i	he spoke to me
is:iwl	aš	he spoke to you (ms)
is:iwl	am	he spoke to you (fs)
is:iwl	as	he spoke to him/her
is:iwl	ax	he spoke to us
is:iwl	awn	he spoke to you (mp)
is:iwl	awnt ~ ašnt	he spoke to you (fp)
is:iwl	asn	he spoke to them (m)
is:iwl	asnt	he spoke to them (f)

(2) for Direct Objects (i.e. with transitive verbs, e.g.,  
/sal/ 'to ask')

isal	i	he asked me
isal	s	he asked you (ms)
isal	sm	he asked you (fs)
isal	t	he asked him
isal	t:	he asked her
isal	ax	he asked us
isal	šun	he asked you (mp)
isal	šunt	he asked you (fp)
isal	tn	he asked them (m)
isal	tnt	he asked them (f)

(E) Demonstrative Pronouns

(1) Independent Set

wu	(proximate)	win:	(remote)	ms
tu	(proximate)	tin:	(remote)	fs
inu	(proximate)	inin:	(remote)	mp
tinu	(proximate)	tinin:	(remote)	fp

(2) Suffixes

/-u/	(proximate)	m,f,s,p
/-in:/	(remote)	m,f,s,p

Notes on Sentences and Sentence Types

The discussion of sentences in Tamazight includes

(A) The Verbless Sentence

(B) The Verbal Sentence

Each of these two types of structure can have any of the following modes:

- (1) Affirmative
- (2) Interrogative
- (3) Negative
- (4) Negative-Interrogative

The structures mentioned above (A.1 - A.4 and B.1 - B.4) and Imperative structure (grouped under C), will be found in the following examples.

(A)(1) Verbless: Affirmative

Examples of such sentences are:

isminw muḥa . 'My name is Mohamed.'

lʿmrinw tlatin ʿam . 'I am 30 years old.'

A Verbless Affirmative structure may occur with /ʔr/ 'particle of possession'; Examples:

ʔrs išt ntrbat: . 'He has a girl.'

or structures having the 'presentational particles', /ha/, /han:/; Examples:

ha n:ʿnaʿ . 'Here is the mint.'

or with the help of /d/, 'particle of assertion'; Examples:

muḥa daryaz n:imirwaḥd . 'Mohamed is in fact an excellent man.'

or as a greeting or a response to a greeting. Examples:

s:alamuʿlik:um . 'Hello.' (to a man by a man)

(A)(2) Verbless: Interrogative

Such sentences may occur in structures similar to the above having interrogative intonation; Examples:

lwašun labas ? 'How is the family?'

ʔrs sbʿa l:wašun ? 'Does he have seven children?'

or with the interrogative particle /is-/ before such structures as the following:

is ʔrš šal lwašun ? 'Do you have children?'

They also occur with question words. Examples:

mismn:š ? 'What is your name (ms)?'

mšhal ilʿmrn:š ? 'How old are you (ms)?'

mani muḥa ?

'Where is Mohamed?'

(A)(3) Verbless: Negative

These structures occur with /ur-/ 'negative particle' or /ulid:-/ 'It's not'. Examples:

urḡri lflus .

'I have no money.'

ulid: am wu .

'It is not like this (ms).'

(A)(4) Verbless: Negative - Interrogative

Such structures are achieved through the use of /isur-/, the Negative - Interrogative particle. Examples:

isurḡrs lflus ?

'Doesn't he have money?'

(B)(1) Verbal: Affirmative

Sentences having one verb. Examples:

tl:a da .

'She is here.'

q:imn dy fas .

'They stayed in Fez.'

Notice that the word order of sentences consisting only of a verb and its subject is preferably:

Verb + Subject [in Construct State]

but sometimes can be:

Subject [in Free State] + Verb

Compare members of the following pairs:

if:ḡ umaziḡ .

'The Berber went out.'

and amaziḡ if:ḡ .

'The Berber went out.'

If any of the moveable affixes (i.e. object pronominal affixes or particles of proximity, /d:/ and remoteness, /n:/) occur they are post-verbal if the sentence does not have any

temporal or modal prefixes, prepositions or conjunctions, and pre-verbal if any of the above elements does occur in the sentence.

Examples:

yušast:d: . 'He gave it (f) to him (nearer).'

yušastid . 'He gave it (m) to him (nearer).'

isrud: muḥa xmstaš: ntfunast .

'Mohamed bought fifteen cows (nearer).'

aryaz din d:isrin irdn ayu .

'This is the man who bought wheat (nearer).'

The verb 'to be', /iž/, occurs in many structures preceded by /ay/ 'who, which, what'. Examples:

taxant uryaz aytžu . 'This is the man's tent.'

šk: bulhm:am ay tžit . 'You are the public bath attendant.'

#### Sentences having two verbs.

Expressing English 'to, in order to' is achieved by the use of two verbs where the second is in the future form. Example:

iraḥ adixdm . 'He went to work.'

The use of conjunctions necessitates two verbs.

Examples:

ntšni dar:a m:ulay dris udin indln di fas aynžu .

'We are the offspring of Mulay Dris who is buried in Fez.'

imyus:an muḥa doli ir:baḍ dindi žmen .

'Muha and Aly got acquainted in Rabat where they met.'

l:at:iržitx am:ani l:an sbʕa 'I dreamt of seven stars.'  
ytran .

in:a is tžu tamt:ut: iʕdl̩n . 'He thought that she was  
a nice woman.'

Conditional sentences have two verbs also. Examples:

mš qbln , l:ag:urn adqdʕn . 'If they agree, they go  
register the marriage.'

mš šyur ša , traht at:zrt adbib.

'If you are sick, go and see the doctor.'

mr ʕri l:in lflus idn:at: , l:asʕix ižran nʕli .

'If I had the money yesterday, I would have bought Aly's  
fields.'

(B)(2) Verbal: Interrogative

This is achieved by the use of the interrogative particle /is-/ prefixed to a verb in the past, or the interrogative particle /isd-/ prefixed to a verb in the future. Examples:

is ifr̩h muħa ? 'Is Mohamed happy?'

isdadimšawan muħa dʕli ? 'Will Mohamed and Aly  
help each other?'

With question words:

mag:ž̩u s:uq: idu ? 'How is the market today?'

wid: ʕrun ir̩ah ? 'Who came to you (mp) house?'

The sentence below shows that the moveable particle /-aš-/ 'to you' is preverbal in the environment of the question word /ma/ 'what':

maš tž̩u š:aht ? 'How are you (ms)?'

(B)(3) Verbal: Negative

This is achieved by the negative prefix /ur-/ before verbs in the past or /ul:i-/ before habitual stems. Examples:

urizri ulad idž nbnadm . 'He did not see a single person.'

ur mri rahx r s:uq: nmidlt .

'I never went to the Midelt market.'

(B)(4) Verbal: Negative-Interrogative

This structure is achieved by the prefixation of /isur-/ to a verb. Examples:

isurastiwiš ? 'Didn't he give it (m) to him?'

isurixdim muha idu ? 'Didn't Mohamed work today?'

(C) Imperative Structures

An imperative structure can occur without a verb, e.g., awru , 'come!' (/awru/ is a particle, not a verb). Other than that, all imperative structures include a verb. Imperative structures directed to second person may contain one or more verbs. Examples of such imperative with one verb are

xdm ! 'Work!'

xdm amuha ! 'Work, Mohamed!'

ini neam iym:aš . 'Answer your mother.'

Notice that habitual stems can occur to express an "energetic" Imperative. Example:

xd:m . 'Do work!' or 'Get in the habit of working.'

Examples of Imperative having two verbs in the imperative:

sir xdm ! 'Go work!'

Negative Imperative (second person) structures are realized by the use of /adur-/ before a habitual stem.

adurd:t:l<sup>h</sup>ab da . 'Don't play (nearer) here.'

First person imperatives (i.e. hortatory or cohortative constructions expressing an exhortation or suggestion for first person) occur with verb /k:r/ 'to get up' or the particle /yal:ah/ 'let us'. Examples:

yal:ah answ at:ay . 'Let us (go and) have  
(drink) tea.'

k:rax an:rah γr s:uq: . 'Let us (mp) go to the  
market.'

TRANSLATION OF SAMPLE TEXT: The Month of Ramadan

The Berbers are Moslems; they pray, give alms, pay tithes, go on pilgrimages and fast. They fast during the month of Ramadan which succeeds Shaban. At the end of the month of Shaban people see a new quarter of the moon. The following day they fast. They eat the first meal of the day before dawn, rinse (wash) their mouths and begin to fast. They should neither eat nor drink nor smoke; at any rate, very few Berbers smoke anyhow. They can't eat what they want until sunset when the prayers are called for and people go and pray before they eat. Then they begin to break their fast, starting their meal with the soup, dates, and finally coffee and bread. Then at dinner time they eat and drink tea, and sleep and wake up before dawn, eat whatever is available to them, and sleep. It goes on like this until the end of the month. Then comes the feast which is known as the small feast.

Abbreviations and Symbols  
With Illustrative Examples

-		Indicates that the word is an affix, e.g.,
AD-		Future particle (prefix)
-@		Referred to and/or glossed separately
--		This symbols means that the word(s) following the -- should be read preceding the first word of the definition, e.g.,
DJAR.		neighbor--to be
=		Indicates a variant form, e.g.,
AH.RIR = TAH.RIRT		'soup'
= -		Means the given word is a suffix, e.g.,
AM = -AM		'to you' (f.s. -suffix)
1DF		First person dual feminine
1DM		First person dual masculine
1P		First person plural
1S		First person singular
2PM		Second person plural masculine
2S		Second person singular
3SF		Third person singular feminine
3PF		Third person plural feminine
3PM		Third person plural masculine
3SM		Third person singular masculine

A

Augmentative. Many nouns can derive Augmentatives. The Augmentative forms are not listed because they are completely regular in their derivation, e.g.,

TAZYAWT	basket	AZYAW	A
TAJMART	mare	AJMAR	A
TAJRTILT	mat	AJRTIL	A

ADMIN.

Administrative, e.g.,  
function--ADMIN.

LUD.IFT

AFF.

Affix, used particularly for moveable affixes that are now prefixes, now suffixes, e.g.,

\$ = -\$

You (m.s.) Pron. AFF.

AFFIR.

Affirmative

AI

Type of ablaut (vowel gradation in verb, e.g. English "sing, sang, sung"). See Notes on the Grammar of the Verb.

AR

Of Arabic origin

AU

Type of ablaut (vowel gradation in verb, e.g. English "sing, sang, sung"). See Notes on the Grammar of the Verb.

BE

Of Berber origin

CONDIT.

Conditional mood

D

Diminutive. Many nouns can derive diminutives. The Diminutive forms are not listed because they are completely regular in their derivation, e.g.,

ABH.IR	orchard	TABH.IRT	D
ABRDUZ	rag	TABRDUZT	D
AQID.UN	tent	TAQID.UNT	D
AQ:MU	mouth	TAQ:MUT	D

EG

For example

E.T. Everything; e.g., "Take E.T. from someone" should read "Take everything from someone"

EX: Expression, e.g.,

BISMIL:AH EX: Before eating (i.e., an expression said before eating)

F Feminine

\*F No feminine form, e.g.,

ABN:AY - M \*F 'mason'

FEM. Feminine, e.g.,

TAR 'less' (FEM. of WAR)

I Intransitive verb

IA Type of ablaut (vowel gradation in verb, e.g. English "sing, sang, sung"). See Notes on the Grammar of the Verb.

IU Type of Ablaut (vowel gradation in verb, e.g. English "sing, sang, sung"). See Notes on the Grammar of the Verb.

LIT. Literally

M Masculine

(M--M) Masculine to masculine, i.e. the word is used when a male is addressing another male

MSV Recipro-Causative Verb Stem

MSVH Habitual Form of MSV

MV Reciprocal Verb Stem

MVH Habitual Form of MV

N A verb that takes either Direct or Indirect Object (can be Transitive or Intransitive)

NACT Noun of Action

NAGT Noun of Agent

NMIS. Miscellaneous Noun. This could be NIST (Noun of Instrument), NOCC (Noun of Occupation), NLOC (Noun of Location) or NREL (Related Noun), e.g.,

LMN\$AR. 'saw' (NINST)  
 derived from N\$R. 'to saw'

LH.M:AM 'public bath' (NLOC)  
 derived from H.M:M 'to bathe'

TURIFT 'popcorn' (NREL)  
 derived from ARF 'to cook popcorn'

OBJ Object

OO Type of ablaut (vowel gradation in verb, e.g. English "sing, sang, sung"). See Notes on the Grammar of the Verb.

P Plural

PART.: Particle, e.g.,

IS- Part: Interrogative

-PNG- Person, Number, Gender

PRON. Pronominal

REL. Relative Pronoun

RELIG Religion, e.g.,

LH.R.AM 'prohibited' (RELIG)

RES. Response to, e.g.,

L.:AYSL:M RES. to HELLO (F)

S Singular

(S.N.) See Notes at the end of PART ONE: Tamazight-English Lexicon for additional explanation.

-SN See Notes at the end of PART ONE: Tamazight English Lexicon for additional explanation.

S.O.	Someone, e.g., "to talk to S.O." should read "to talk to someone"
S.T.	Something, e.g., "to do S.T." should be read "to do something"
SV	Causative Verb Stem
SVH	Habitual Form of SV
T	Transitive Verb
TUV	Passive Verb Stem
TUVH	Habitual Form of TUV
UTTER.	Utterance
V	Verb, simple unaugmented Verb Stem (for past and future tenses)
VH	Habitual form of the simple unaugmented verb (for present tense)
VOC.	Vocative, e.g.,
ATA	Particle: VOC. (F)
WL	Western loan word

## How to Use the Lexicon

This lexicon is divided into four parts; Part I: Tamazight-English Lexicon; Part II: English-Tamazight Lexicon; Part III: Cultural Lexicon; and Part IV: Linguistic Lexicon.

Part I, the Tamazight-English Lexicon, is the most complete of the four sections of this study. It is suggested that the reader consult it for the complete listing and derivation of any of the Tamazight words listed in the three other Lexicons.

The listings are arranged according to the following alphabetical order:

A B B: D D: D. D.: F F: G G: G. G.: H H: H. H.: I K K:  
K. K.: L L: L. L.: M M: N N: Q Q: R R: R. R.: S S: S. S.:  
\$ \$: T T: T. T.: U W W: X X: Y Y: Z Z: Z. Z.: J J: ε ε:  
8 8:

Listings of nouns and particles appear in the Tamazight-English Lexicon as follows:

AKTATBI	PL. IKTATBIN	M AR	SECRETARY
		--ALSO	SCRIBE

Here AKTATBI is the main listing, IKTATBIN is the plural form, "M" means masculine, "AR" is the word origin (Arabic), and the last part is the English definition. "--ALSO" indicates an alternate definition.

The plurals of nouns and particles are listed separately, as follows:

IKTATBIYN	PL. of AKTATBI
-----------	----------------

The reader is advised to consult the list of symbols and abbreviations (see pp. lix - lxiii) for a complete listing of

all abbreviations used in all lexicons.

Verbs are listed as follows:

NQ:L	VH T:UNQ:L	OO T AR	TRANSPLANT
		--ALSO	TRANSPORT
	TUVH T:UNQ:L	TUVH T:UNQ:AL	
	NACT ANQ:L-@		

"NQ:L" is, of course, the main entry. "VH" is the habitual form; "OO" is the ablaut; "T" indicates transitivity; "AR" is Arabic; "--ALSO" indicates an alternate gloss; "TUV", "TUVH" and "NACT" are all possible derivations of "NQ:L"; and the "-@" indicates that the word is listed separately in the lexicon with a gloss (see pp. lix - lxiii for list of abbreviations).

In addition to the above, the "VH", "SV", "MV", "MSV", "TUV" are listed separately in the lexicon along with their habitual forms as follows.

T:UNQ:L	TUVH	T:UNQ:AL	TUV(H)	of NQ:L
---------	------	----------	--------	---------

The possible derivations of the Tamazight verb appear in the lexicon after the main entry in the following order:

VH	
SV	SVH
MV	MVH
TUV	TUVH
MSH	MSVH
NACT	
NACT	
NMIS	

The notes which occur at the end of the English-Tamazight Lexicon have been included to accommodate definitions which would normally be too long for efficient computer programming. There are also other definitions which have been abbreviated somewhat for this reason and the author apologizes for this inconvenience.

Part II, The English-Tamazight Lexicon, is arranged alphabetically. The most important feature that should be noted here is that certain English glosses requiring more than one word (e.g., "to give birth" or "loaf of bread") are alphabetized under two key words--here: "birth--give" and "bread--loaf of", as well as "give birth" and "loaf of bread". It should be noticed that the double dash "--" indicates that the word or words following it should be read first, e.g., "birth--give" should be read "give birth" and "hand--palm of" should be read as "palm of hand". The reader is again advised to seek more information about any particular word in the Tamazight-English Lexicon.

Part III, the Cultural Lexicon, is a classification of most of the Tamazight words into Main Cultural Categories (e.g. Agriculture) and Sub-categories (e.g. Fruits and Vegetables). Each category is arranged in alphabetical order. Statistics on the number of Berber, Arabic, and Western loan words are included at the top of each section. Each main category is identified by a number and each sub-category by the main category's number plus one additional digit. There are twenty main categories in the cultural lexicon. For an index of this section consult the "Index to Cultural Lexicon" on Pages 241-242.

The words in this section have not been extensively cross-referenced. A large number of categories is utilized, because certain limited subject matters, such as part of the human body or days of the week, may be of some use to the comparative linguist. It should be noted that the apparent number

of entries may differ from the statistics given, because each gloss of a Tamazight word is listed separately.

The only particular categories worth mentioning are "Human Physical Activity" (123) and "Human Mentality" (13). These are the largest and most general categories in which any unclassified human activity is placed.

Part IV, the Linguistic Lexicon, contains many studies of Tamazight words. The studies are as follows:

1. NOUNS OF BERBER ORIGIN (Tamazight-English)
2. NOUNS OF ARABIC ORIGIN (Tamazight-English)
3. NOUNS OF WESTERN ORIGIN (Tamazight-English)
4. NOUNS WITH DIMINUTIVES (Tamazight-English)
5. NOUNS WITH AUGMENTATIVES (Tamazight-English)
6. NOUNS WITH NO FEMININES (Tamazight-English)
7. NOUNS WITH NO PLURALS (Tamazight-English)
8. NOUNS WITH "IT-" PLURALS (Tamazight-English)
9. PARTICLES ARRANGED (These are arranged into categories, and in English-Tamazight alphabetical order)
10. VERBS OF BERBER ORIGIN
11. VERBS OF ARABIC ORIGIN (Since there is only one Tamazight verb of Western origin, namely GR.S.S. 'to exercise [military]' no listing of verbs of Western origin was necessary)
12. VERB SUMMARY

This section appears as follows, e.g.:

N:UQB	12	8	NO	I AR	A:VCD	TO BE PIERCED
N:JLA	12		IA	I AR	A:BCV	TO BE LOST
QAWL	1 3		NO	I AR	AVCD	PROMISE

The numbers refer to the productivity of the verb (as follows).

- 1 Occurrence of VH (Habitual Verb Stem - used for present tense formation)
- 2 Occurrence of SV and SVH (Causative stem and its habitual form)
- 3 Occurrence of MV and MVH (Reciprocal stem and its habitual form)
- 4 Occurrence of TUV and TUVH (Passive stem and its habitual form)
- 5 Occurrence of MSV and MSVH (Recipro-causative stem and its habitual form)
- 6 Occurrence of NACT (Noun of Action)
- 7 Occurrence of NAGT (Noun of Agent)
- 8 Occurrence of NIS (Miscellaneous Noun)

The listing of verbal derivatives is followed by the ablaut; transitivity--either I (intransitive), T (transitive), or N (neutral); word origin; and verb shape. Notice that in listing verb shape "A" is an initial non-tense consonantal radical, "A:" is an initial tense consonantal radical, "B" is a second non-tense consonantal radical, "B:" is a second tense consonantal radical, "C" is a third non-tense consonantal radical, and so on. "V" is a vocalic (vowel) radical wherever it may occur. This is followed by the English gloss.

13. COMPARISON OF ABLAUT AND VERB SHAPE
14. COMPARISON OF TRANSITIVITY AND VERB PRODUCTIVITY
15. COMPARISON OF WORD ORIGIN AND VERB SHAPE
16. COMPARISON OF WORD ORIGIN AND ABLAUT

## NOTES

AKF:IF	BREAKING OF WIND NOISELESSLY
AH.R:AZ	SOMEONE WHO PREVENTS A WOMAN FROM MEETING OTHER MEN, PROBABLY A RELATIVE OR HER HUSBAND; IT ALSO MEANS "JEALOUS".
A\$Q:IQ	FIRST COUSIN; A RELATIVE OF THE SAME GENERATION
AZ.R.:ID.	BREAKING OF WIND WITH NOISE.
A&R.QB	KILLING OF A SHEEP TO OFFICIALLY CELEBRATE AN ENGAGEMENT.
BU-	OWNER (OF); HE WHO, E.G. "BULH.M:AM" (PUBLIC BATH ATTENDANT)
G:UR	HABITUAL FORM FOR "SIR" (TO GO), AND "AR.AH." (TO GO).
HAHY:A	HERE--PRESENTATION PARTICLE, E.G. "HERE COMES MOHAMMED".
IN:Y	ONE OF THREE STONES OF WHICH A TRIPOD IS BUILT FOR COOKING.
LI&NDAM	AN EXPRESSION OF CAUTION DIRECTED TO F.S. DENOTING THAT THE REVERSE OF A STATED SENTENCE IS TRUE. (ALSO LI&NDA\$ TO M.S., LI&NDAWNT TO F.P., AND LI&NDAWIN TO M.P.)
LMSX	METAMORPHOSIS, E.G. REFERS TO GOD'S PUNISHMENT OF CHANGING A PERSON INTO A COW.
LXIR.	GOOD: RESTRICTED TO SUCH EXPRESSIONS AS "S.BAH.LXIR.", LIT. A MORNING OF GOOD.
L&ZIB	CAMPING OUTSIDE VILLAGE
N&AM	YES IN RESPONSE TO S.O. CALLING SOMEONE'S NAME
SB:6	TO REACH THE SEVENTH DAY OF AN OCCASION, E.G. THE BIRTH OF A CHILD.
S:ALAM	"PEACE": THIS WORD OCCURS ONLY IN GREETINGS, E.G. S:ALAM&LIK:UM (HELLO).

---

S:H.UR.	LAST MEAL BEFORE DAYBREAK DURING THE MONTH OF RAMADAN.
S:IB&	SEVENTH DAY CEREMONY AFTER THE BIRTH OF A CHILD.
S:MRARA	POUR TEA INTO CUPS AND BACK INTO THE TEAPOT DURING THE PREPARATION OF TEA.
S.ALH.	SURRENDER; THIS REFERS TO THE DATE A CERTAIN TRIBE SURRENDERED, OR IN OTHER WORDS, ACCEPTED FRENCH OCCUPATION BEGINNING THE FRENCH PROTECTORATE IN 1912.
\$.RIF	DESCENDANT OF MOHAMMED THE PROPHET; SAINT.
\$.WARI	TWO-POCKET BAG MADE OF PLANTS PUT ON BEASTS OF BURDEN.
TANFISRA	HOLE IN THE CEILING WHICH SERVES AS A CHIMNEY.
TFANT	CLAY PLATTER TO COOK BREAD.
TINITIN	PREGNANT WOMAN'S CRAVING FOR UNUSUAL FOODS.
T:UX	PARTICLE MEANING 'USED TO' IF FOLLOWED BY A HABITUAL FORM, OR 'HAD' IF FOLLOWED BY PAST TENSE.
U	AND; E.G. 8:10, LIT. EIGHT O'CLOCK AND TEN MINUTES.
UL:I	NEGATIVE PREFIX USED WITH THE HABITUAL FORM.
UYA\$	ISN'T IT? (DIRECTED TO M.S.)
UYAM	ISN'T IT? (DIRECTED TO F.S.)
UYAMN	ISN'T? (DIRECTED TO M.P.)
UYAWNT	ISN'T IT? (DIRECTED TO F.P.)
X:I\$T	EXPRESSION MEANING ROUGHLY, "HIT HIM WHERE IT HURTS."
YA\$	(SAME AS ABOVE; ALSO: 'YAM' (TO F.S.) YAWN (TO M.P.), AND 'YAWNT' (TO F.P.)
J&L	TO DO, MAKE; THIS WORD IS RESTRICTED TO SUCH EXPRESSIONS AS "L:A IJ&L FIK: LBARAK:A" (MAY GOD BLESS YOU", LIT., "MAY GOD DO BLESSINGS IN YOU".

&LIK:UM

ON YOU, WITH YOU; OCCURS ONLY IN  
GREETING, E.G. "S:ALAM&LIK:UM (PEACE  
BE WITH YOU).

8A

FUTURE PARTICLE WHICH OCCURS AFTER REL-  
ATIVE PRONOUNS, QUESTION WORDS, AND  
CONJUNCTIONS.
