I went to Mr. Woodruff with him by request of Mr. Woodruff, States associate Justice the woman swore that her father had had carnal intercourse with her many times in 3 years past, that he did on the morning of the 21 of January after her husband got up she had not strength enough to resist him and was threatening her life if she did or if she exposed that she had been afraid of her life the whole time. She led him into his wife that morning...
and that when he talked to the next Tuesday for his dinner but said if he had a pistol he would shoot both of them. Then shot himself, they were married. I believe 6 of July. Such a case of extreme cruelty can scarcely be found.

Weather 62° 61° 45° W. Wind SW. Court today sitting school house but every case went down because the warrants were not right then was some fatal miss. I ask in all things that came to me yesterday morning. Said Brown stole $88 dollars from him. Might be wanted to help him. Went with him to his family & before the warrant was ready we got him.
Brown's flour had no doubt Brown stove it & sent it away. Brown started to run away but when the const. went to take him he cooked both barrels of his gun & said he would shoot him & several being near the surround - was discharged today because the warrant was deficient. Gates gave me a thousand dollars but gave him 6 or 7000 & our efforts to open up fruitless to stop liquor traffic this morning. Whatever shall be done I know not.
